MAKE YOUR OWN 3D

VEGETABLE & FRUIT TRUG BOX!

family culture CAMP at home

MUSEUMS OUTDOORS LIBRARIES LOCAL STUDIES ARTS

Make your own 3D card trug or vegetable box full of your favourite fruit and vegetables made from cardboard and paper. During this zoom we will discuss the importance of locally sources and seasonal produce.

What's your favourite fruit or vegetable? I like raspberries and peas in the pod, but not all together! Why not create your own box full of glorious fruit and vegetables? **Here's how.**

It's really easy, you just join us on Zoom and follow a few simple instructions on how to make a fun vegetable box out of card full of your favourite vegetables and fruit.

All you need is:

* coloured card
* coloured tissue paper
* a cereal box
* a pair of scissors
* a glue stick, sticky tape and a stapler
* felt tip pens or colouring pencils

You can usually buy small packs of coloured card and tissue paper in shops like Wilkinson's and The Works; even a discount shop or a big supermarket might sell them too. Don't worry if you don't have everything on the list, we can improvise and get creative, bring with you whatever you can find!

***Remember to ask a grown up for help with this.**

Step by step photos are found on the next 2 pages.

We have created so many other activities, to take a look visit:
