

CHALLENGE 4

Paper Chain Championship

Speed and team work is the key to this challenge.

Working in pairs or teams, set a time limit and see which team can make the longest paper chain in the time.

Of course, everyone is a winner as the chains can now be used to decorate the classroom!

Flower garlands have been made since Roman times and tinsel garlands in Germany in about 1610, but another form of decoration, **paper chains**, were first seen in the UK in the 1850s. They were used to decorate their Christmas trees.
