

VE DAY MAKE A FLAG

Friday 8 May 2020 will see the 75th anniversary of VE Day.

“VE Day stands for Victory in Europe”. This was declared as the official day of celebration. People all over Europe were tired of years of hardship and bombing as a result of World War 2, they wanted to return to a normal life again.

To make your VE Day flag to commemorate you will need:

A pencil, A4 paper, felt tip pens, cello tape and a drinking straw *if you have other materials at home please use.

- * This is such a simple craft. Perhaps you start to design your celebratory flag you could look online for other ideas. Then on your A4 paper draw out your design in pencil – perhaps you could include a union jack, or red white and blue colours. Once you have created your flag you simply need to attach, using cello tape, your flag to a straw. Now help us celebrate by waving your flag from your window!
