Community of Practice

THRIVE Community of Practice event on 29th June 2023, Friends' Meeting House, 6 Mount Street, Manchester, M2 5NS

Our objective for this event is: To find the gaps in your THRIVE provision and identify how to fill them.

The day's events will be reliant on you as leads and localities themselves contributing both your successes and where you feel you need help.

*Instead of a sign-up form this year we are asking that you **identify 9 other colleagues from your area to attend the event**. Ideally these should be multi agency colleagues who will be an essential part of THRIVE next steps in your area. Please send your 9 colleague names and email addresses to me by **Weds 17th May**.*

Group Discussed need for meeting reform for attendees to feel benefit of attending. Possible causes of lack in representation could include, lockdown, understanding meeting purpose, recycling of information, and agenda. Plan is to arrange action group meeting to explore how the meeting can become more beneficial for partners to attend. DC & PW to send out invites for action group and invite community of practice attendees to pre-planning meeting.

Navigating the System

GMCA – Laura

Development of the new Curriculum 4 Life website being delivered by GMCA.

The overall project is to co-create a digital service with young people that will connect them to information and organisations that they say could help them to step into and navigate adult life. The service is known as Curriculum for Life. The concept was agreed with the Youth Combined Authority in late 2020, and young people have been involved at every step.

1. If people want to sign up as experts, can they please complete this form?
