

THE ACTIVE ALLIANCE COMMON GOALS

HOW ACTIVE ARE WE IN 2018-19?

Adults

THE ACTIVE ALLIANCE EXECUTIVE - WHAT IS OUR ROLE?

Collaborative Leadership

Communications

Learning Networks

Priority Setting

Knowledge Sharing

Joining Up Opportunities

Nurturing Community Capacity

OUR SHARED PRIORITIES AND MEASURES OF PROGRESS

1. To support a population shift towards 'Active as the Norm'

Through delivery of the Active Neighbourhoods model.

2. To reduce inactivity amongst our least active residents by 30 minutes per week.

The Active Lives Survey, Public Health Data, and the evaluation of Active Programmes including evaluation of mental health improvements.

3. To increase participation amongst the most under-represented groups.

Programme evaluation, Increased provision of inclusive activities, increased inclusion policies, more accessibility of adapted play and facilities.

4. To work in tandem with the strategic cycling and walking group to promote and enable more active travel and to contribute towards the clean air agenda.

Increased bike access and ownership, more journeys under 1k made via active modes.

5. To reframe physical activity for children and young people to help form positive lifelong relationships.

The Active Lives Schools Survey, independent attitudinal studies.

THE ACTIVE ALLIANCE COMMON GOALS

THE ACTIVE NEIGHBOURHOODS APPROACH

The Active Neighbourhood Model is offered as a practical tool to guide a co-ordinated partnership approach, to join up opportunities across systems, and potential for pooling budgets and funding where increasing activity is the shared goal. Click through each area to learn more about it.

THE ACTIVE ALLIANCE - MEET THE TEAM

The Active Alliance Executive is a cross sector partnership with a shared interest in physical activity. The group is responsible for systems leadership across a programme of work to support and encourage more people in Tameside to move more, every day. This work will support improved health outcomes, better physical and mental health, and will benefit communities and the economy.
