

## **Greater Manchester (GM) 10 Tips for Talking Webinars**

The GM10 Tips for Talking are 10 key messages to support families' and practitioner's understanding, of the importance of talking to young children from an early stage.

The tips range from bump to starting school and highlight the small things we can do which make a BIG difference.

The Tips can be used by any practitioners who work with families of young children, midwives, to early help workers and early years practitioners, and can be used individually or as a full set of resources. They are part of a range of resources developed to support the GM Early Speech, Language and Communication pathway which is being implemented by all of the 10 Greater Manchester Local Authorities.

All of the tips and resources can be found on the [GM10 Tips for Talking Website](#).
