They want your views on the future of health and care services in Hattersley. The closing date for this is **27 March 2020**.
- [Council Off-Street Parking Review](#) – Tameside Council off-street parking is an important service provided by the council. It is appropriate to review the offer to ensure it is fit for purpose; is fair and equitable for all; and meets the needs of a range of users and interested parties. Alongside this a review should ensure the approach to council off-street parking supports wider plans for Tameside in areas such as the economy and environment; and is both viable and sustainable for the long term. Tameside Council is currently undertaking a review of council off-street parking, in which there is a need to balance a number of factors including (but not limited to) the views of the public. Nothing has been decided yet. We want to hear your thoughts on the current council off-street parking provision; when, why and where you use council off-street parking; your views on the future of council off-street parking in Tameside; and how that fits with our priorities around the economy and the environment. The deadline for this is **27 March 2020**.
- [Hyde Town Centre Consultation](#) – Tameside recently submitted a competitive bid into the inaugural One Public Estate/ British Property Federation bidding round. The authority was one of 30 local authorities who submitted bids and Tameside were successful in winning the £100K funding. The bid was designed around a vision that Hyde can be a thriving town centre with increased footfall that is a focal point for its community, serving the existing large residential catchment area whilst also capitalising on the substantial new residential properties being built around the town centre and the new jobs this will create. The bid has already raised the profile

of Hyde and the grant funding will provide an opportunity to kick start work to achieve the Hyde vision.

We value your views, ideas and suggestions on your town and what's important to you. [Help shape Hyde for the 21st century - have your say](#)
