Local engagement and consultations

There are a number of consultations taking place which you may wish to take part in. For further information and to have your say please follow the relevant links below:

- **Portage Service Consultation** – The Portage Service is part of the Early Years Offer in Tameside. The Portage Team have links with the Integrated Service for Children with Additional Needs (known as ISCAN).

Portage offers tailored sessions which are designed to help children from 0-5 years who have additional needs to develop through play with support from various services and their parents/carers. Families are visited on a regular basis, weekly, fortnightly or monthly usually at home by a Portage worker.

The portage offer has remained successful throughout this period with positive feedback from families, therefore we would like to maintain elements of this offer moving forward. What is proposed is an offer that will be more virtual, take place more predominantly through inclusive groups within our children's centres, meanwhile reducing the offer of support by 1:1 home visits. The service would like to

hear your views on the proposal to continue this way of delivering the Portage Service, how we progress this and continue to meet varying needs. The deadline for this is **7 July 2021**. <https://www.tameside.gov.uk/tbc/portageserviceconsultation>

- **Homelessness Contract Consultation** – Tameside Council has a statutory duty to provide services to people who are homeless or threatened with homelessness. The homelessness service is provided under contract by Tameside Housing Advice. The Council also commissions a number of other services that contribute towards the prevention of homelessness and enable the Council to meet its statutory duties. This includes the commission of supported accommodation for people with a range of needs and floating support services that work to both make sure a person can stay in their home or help people access suitable housing. The Council also runs the Rough Sleeper service which works to provide accommodation and support to ensure that no-one has to sleep rough in the Borough.

These contracts are due to expire and the Council is planning to re-commission services that will continue to offer a range of accommodation and support services that will also ensure service users are given every opportunity to build life skills to move on to managing their own tenancy, have increased independence and regain a positive place in the community. Overall the Council want to make sure that we focus on the right things in Tameside and want to hear your views the closing date is **22 June 2021**.

Covid-19 opinion and behaviour insight:

The following are some key statistics taken from different pieces of national and regional research indicating what the impact of covid-19 has been for people including businesses. Understanding the impact of Covid-19 will be crucial to our recovery locally and how we plan to build back better.

- Britain is currently feeling optimistic, with all age groups feeling far more positive than a few months ago, and concern about the virus has now dropped close to pre-lockdown levels in March 2020, with just 58% saying they are worried about the effects of the virus on themselves.
- The number of Britons finding it easier to stay positive about the future has increased (to 16%), and 75% are hopeful that the 21 June will see the end of lockdown as planned.
- However, at the same time 79% are concerned about variants coming to the UK and causing another wave of COVID-19. Linked to that, 67% say they would support stopping people entering the UK from *any* foreign country in order to stop variants spreading, and

42% support introducing another national lockdown if it is needed. The public remains cautious.
