**Tameside in 2042 will be:**

- **Travel: A well-connected place, where active travel is the first and natural choice, with high quality public transport connections, where people can travel safely and conveniently to destinations both within and beyond the borough.**
- **Places: A place where our cultural and built heritage are cherished, and where good design creates sustainable, safe, inclusive and accessible places.**
- **Environment: A greener place with a thriving natural environment and clean air, where communities and infrastructure are sustainable and climate resilient.**
- **People: A place where children are given the best start in life, are able to exceed expectations and where everyone is able to live a healthy, happy and active life within thriving supportive communities, supported by the services they need.**

## **STRATEGIC OBJECTIVES**

**To what extent do you agree with the Homes, Spaces, Places strategic objectives?**

**Homes: To ensure that new housing provides a range of suitable and affordable homes to meet residents' needs, whilst making efficient use of land.**

Strongly disagree

**Jobs: To enable all residents to share in the benefits of economic growth**

Neutral

**Centres: To support the borough's centres to thrive, be vibrant and attractive and safe spaces where people choose to spend time.**

Agree

**Travel: To enable everyone to travel safely, conveniently and reduce congestion.**

Strongly disagree

**Places: To deliver development that makes a positive contribution to the character, heritage and identity of Tameside.**

Agree

**Environment: To ensure that new development responds positively to climate change and ecologically sensitive locations.**

Strongly agree

**People: To reduce health inequalities, improve health outcomes and enable the provision of services and infrastructure to support new and existing communities.**

Agree

**Please give a reason for the choices you provided above.**

Travel should be to provide suitable and WORKABLE alternatives to car travel. Cheaper and better bus and train services.

Forget cycle lanes as the climate is too wet and cold for most people. It was a joke when the council compared providing cycle lanes Ed's for Godley Green to a scheme from Cambridge. Totally different population dynamic and climate. Like comparing living on earth to living on Mars!

**If you think there should be alternative strategic objectives to those suggested, please detail these below.**

Develop town centres with more housing. Encourage people to live and shop there.

Look at utilising empty public and private housing.

Forget developing greenfield sites. There is very little green space and Tameside needs some lungs
