SPATIAL VISION

The plan sets out a spatial vision for Tameside that hopes to support in the vision and priorities within the Council's Corporate Plan. The proposed vision for the plan is set out below.

Tameside in 2042 will be:

- **Homes: A place where people are proud to live, with a range of attractive and affordable homes that meet local needs.**
- **Jobs: A place with a strong local economy where businesses choose to remain, invest and grow, and where residents can learn and earn.**
- **Centres: A place with a range of strong, vibrant and diverse centres which serve their local communities and where people want to spend time.**
- **Travel: A well-connected place, where active travel is the first and natural choice, with high quality public transport connections, where people can travel safely and conveniently to destinations both within and beyond the borough.**
- **Places: A place where our cultural and built heritage are cherished, and where good design creates sustainable, safe, inclusive and accessible places.**
- **Environment: A greener place with a thriving natural environment and clean air, where communities and infrastructure are sustainable and climate resilient.**
- **People: A place where children are given the best start in life, are able to exceed expectations and where everyone is able to live a healthy, happy and active life within thriving supportive communities, supported by the services they need.**

To what extent do you agree with the Homes, Spaces, Places Vision for Tameside?

Strongly disagree

Please give a reason for your answer.

Building of homes on Green space is creating an ugly area. Lack of infrastructure will cause chaos in systems that are already overstretched.

If you think there should be alternative wording for the Vision, please detail your proposed wording below.

Building on brown land

STRATEGIC OBJECTIVES

Neutral

Centres: To support the borough's centres to thrive, be vibrant and attractive and safe spaces where people choose to spend time.

POLICIES MAP AND INTEGRATED ASSESSMENT

A policies map has been published which shows the areas of land that relate to specific policies in this plan at this stage in the process. Future versions of Homes, Spaces, Places will have specific allocations and further designations of land linked to policies. An updated policies map will be produced at that time to identify these.

If you have any comments on the Policies Map, please provide these below.

An Integrated Assessment Report has been produced to accompany this plan. The Integrated Assessment identifies the potential sustainability impacts of implementing the Homes, Spaces, Places Plan.

Do you consider that the Integrated Assessment has adequately assessed the potential environmental, social, and economic impacts of the proposed policy approaches and strategies within the Plan?

Are there any sections of the Integrated Assessment that require further explanation or clarification?
