**Tameside in 2042 will be:**

- **Homes: A place where people are proud to live, with a range of attractive and affordable homes that meet local needs.**
- **Jobs: A place with a strong local economy where businesses choose to remain, invest and grow, and where residents can learn and earn.**
- **Centres: A place with a range of strong, vibrant and diverse centres which serve their local communities and where people want to spend time.**
- **Travel: A well-connected place, where active travel is the first and natural choice, with high quality public transport connections, where people can travel safely and conveniently to destinations both within and beyond the borough.**
- **Places: A place where our cultural and built heritage are cherished, and where good design creates sustainable, safe, inclusive and accessible places.**
- **Environment: A greener place with a thriving natural environment and clean air, where communities and infrastructure are sustainable and climate resilient.**
- **People: A place where children are given the best start in life, are able to exceed expectations and where everyone is able to live a healthy, happy and active life within thriving supportive communities, supported by the services they need.**

**To what extent do you agree with the Homes, Spaces, Places Vision for Tameside?**

Strongly disagree

**Please give a reason for your answer.**

Some areas like mine. Haughton Green especially cannot take any more, it doesn't have the infrastructure to cope. Adding bike lanes to already tight roads, not maintained, no drs appointments, no schools, no dentists, roads a mess. Some areas need to be left alone to stay green. Heritage and the old rectory and the large house in Denton allowed to be knocked down and the one a facing the Methodist church in haughton green. To name just a few

**If you think there should be alternative wording for the Vision, please detail your proposed wording below.**

Strongly disagree

**People: To reduce health inequalities, improve health outcomes and enable the provision of services and infrastructure to support new and existing communities.**

Agree

**Please give a reason for the choices you provided above.**

Too many houses means too much of the above, it cannot take it. Reducing lanes which cause back log of traffic, re fumes, buses late because of it, trains hit and miss especially winter, tram accidents. Too many barbers, vape shops and take aways. You the council are authorising this. Apparently making Denton town centre with bus lanes, not one place to park which is council apart from near the post office, the swimming baths is really for their usage. Ruined town centres, Hyde with umberellas. Ashton re built over and over. Until the world signs up to climate change then what can we do. Electric cars, the manufacturer is turning down your charging capacity at 3 years to save the battery, it's worth less when you have bought it. Keep green spaces, get kids out in it, grown own produce. Take all the rubbish out of our foods, eat British
