SPATIAL VISION

The plan sets out a spatial vision for Tameside that hopes to support in the vision and priorities within the Council's Corporate Plan. The proposed vision for the plan is set out below.

Tameside in 2042 will be:

- **Homes: A place where people are proud to live, with a range of attractive and affordable homes that meet local needs.**
- **Jobs: A place with a strong local economy where businesses choose to remain, invest and grow, and where residents can learn and earn.**
- **Centres: A place with a range of strong, vibrant and diverse centres which serve their local communities and where people want to spend time.**
- **Travel: A well-connected place, where active travel is the first and natural choice, with high quality public transport connections, where people can travel safely and conveniently to destinations both within and beyond the borough.**
- **Places: A place where our cultural and built heritage are cherished, and where good design creates sustainable, safe, inclusive and accessible places.**
- **Environment: A greener place with a thriving natural environment and clean air, where communities and infrastructure are sustainable and climate resilient.**
- **People: A place where children are given the best start in life, are able to exceed expectations and where everyone is able to live a healthy, happy and active life within thriving supportive communities, supported by the services they need.**

To what extent do you agree with the Homes, Spaces, Places Vision for Tameside?

Agree

Please give a reason for your answer.

I think it's important that there are more homes available in the area but I'm worried about the infrastructure. The doctors surgery local to the area, Tameside Medical Group is already overstretched.

If you think there should be alternative wording for the Vision, please detail your proposed wording below.

STRATEGIC OBJECTIVES

To what extent do you agree with the Homes, Spaces, Places strategic objectives?

Homes: To ensure that new housing provides a range of suitable and affordable homes to meet residents' needs, whilst making efficient use of land.

Strongly agree

Jobs: To enable all residents to share in the benefits of economic growth

Strongly agree

Centres: To support the borough's centres to thrive, be vibrant and attractive and safe spaces where people choose to spend time.

Strongly agree

Travel: To enable everyone to travel safely, conveniently and reduce congestion.

Strongly agree

Places: To deliver development that makes a positive contribution to the character, heritage and identity of Tameside.

Strongly agree

Environment: To ensure that new development responds positively to climate change and ecologically sensitive locations.

Strongly agree

People: To reduce health inequalities, improve health outcomes and enable the provision of services and infrastructure to support new and existing communities.

Strongly agree

Please give a reason for the choices you provided above.

I agree with all of the developments but need to know more about how the health service will cope

If you think there should be alternative strategic objectives to those suggested, please detail these below.

I think that this part of Ashton needs a large purpose built health centre with enough doctors, other clinician and support staff to make sure that patients needs are properly met. The current surgery is struggling without the new homes that are currently being planned.

POLICIES MAP AND INTEGRATED ASSESSMENT

A policies map has been published which shows the areas of land that relate to specific policies in this plan at this stage in the process. Future versions of Homes, Spaces, Places will have specific allocations and further designations of land linked to policies. An updated policies map will be produced at that time to identify these.

If you have any comments on the Policies Map, please provide these below.

An Integrated Assessment Report has been produced to accompany this plan. The Integrated Assessment identifies the potential sustainability impacts of implementing the Homes, Spaces, Places Plan.

Do you consider that the Integrated Assessment has adequately assessed the potential environmental, social, and economic impacts of the proposed policy approaches and strategies within the Plan?

Are there any sections of the Integrated Assessment that require further explanation or clarification?
