- **Homelessness Contract Consultation** – Tameside Council has a statutory duty to provide services to people who are homeless or threatened with homelessness. The homelessness service is provided under contract by Tameside Housing Advice. The Council also commissions a number of other services that contribute towards the prevention of homelessness and enable the Council to meet its statutory duties. This includes the commission of supported accommodation for people with a range of

needs and floating support services that work to both make sure a person can stay in their home or help people access suitable housing. The Council also runs the Rough Sleeper service which works to provide accommodation and support to ensure that no-one has to sleep rough in the Borough.

These contracts are due to expire and the Council is planning to recommission services that will continue to offer a range of accommodation and support services that will also ensure service users are given every opportunity to build life skills to move on to managing their own tenancy, have increased independence and regain a positive place in the community. Families are visited on a regular basis, weekly, fortnightly or monthly usually at home by a Portage worker.

The portage offer has remained successful throughout this period with positive feedback from families, therefore we would like to maintain elements of this offer moving forward. What is proposed is an offer that will be more virtual, take place more predominantly through inclusive groups within our children's centres, meanwhile reducing the offer of support by 1:1 home visits. The service would like to hear your views on the proposal to continue this way of delivering the Portage Service, how we progress this and continue to meet varying needs.
