Q15 Do you make 'top up' shopping trips in between your main food shopping trips? Top up grocery shopping includes 'basket shops' in foodstores, purchases from speciality retailers such as bakers, butchers and greengrocers, and snacks bought from shops. It could also include online food shopping.

Yes	61.1%	1055	33.5%	21	54.5%	71	69.8%	32	35.8%	40	62.9%	49	66.6%	99	65.6%	40	71.9%	99

Q21 Thinking more generally how much does your household spend on average on 'top up' food and grocery shopping in a week? Once again, top up grocery shopping includes 'basket shops' in foodstores, purchases from speciality retailers such as bakers, butchers and greengrocers, and snacks bought from shops. It could also include online food shopping.																		
Those that do top-up shopping at Q15																		
£1 - £5	3.7%	39	5.9%	1	1.1%	1	4.7%	1	9.0%	4	2.2%	1	3.7%	4	1.0%	0	1.5%	2

Q15 Do you make 'top up' shopping trips in between your main food shopping trips? Top up grocery shopping includes 'basket shops' in foodstores, purchases from speciality retailers such as bakers, butchers and greengrocers, and snacks bought from shops. It could also include online food shopping.

Q21 Thinking more generally how much does your household spend on average on 'top up' food and grocery shopping in a week? Once again, top up grocery shopping includes 'basket shops' in foodstores, purchases from speciality retailers such as bakers, butchers and greengrocers, and snacks bought from shops. It could also include online food shopping. *Those that do top-up shopping at Q15*

Appendix 3 – Town Centre Healthchecks

Ashton-under-Lyne Town Centre

Description

Ashton-under-Lyne is the principal town centre within Tameside and plays a key role in serving a wide residential catchment as well as acting as the borough's main retail, leisure service and civic hub. The adopted town centre boundary contains 445 retail, leisure and service units with a total of 89,024 sq.m of commercial floorspace. The Goad survey does not cover all units within the adopted boundary but focuses on the main cluster of shops and services, which together form the commercial core.

The centre is arranged around a network of streets, with Warrington Street, Stamford Street Central, Old Street and Market Avenue forming the heart of the retail area. The Arcades Shopping Centre and Market Hall act as key anchors, supported by the Ladysmith Centre. Large supermarkets including Asda on Cavendish Street, Aldi on Wellington Road, Lidl on Cavendish Street, Sainsbury's Local on Lord Sheldon Way and M&S Foodhall at Ashton Moss play an important role. While Sainsbury's and M&S are on the edge of the boundary, they benefit from good pedestrian connections into the core, helping to support linked trips.

Several streets in the centre are pedestrianised, including Warrington Street, Market Avenue, Staveleigh Way and Bow Street, which form the busiest pedestrian circuit and link the Arcades, Market Hall and Market Square. The Memorial Gardens also sit within the town centre boundary and provide a valuable green space, as well as pedestrian and cycle links into the retail core. The Park Parade ring road (A635/A670) encloses the centre and makes it highly accessible by car, but also acts as a barrier between the centre and nearby residential neighbourhoods.

Figure 1: This image shows a tree-lined public space in Ashton town centre, providing greenery and a pleasant setting that enhances the character and attractiveness of the centre.

Figure 2: This image shows the rear of the Ladysmith Shopping Centre, where enclosed walkways and limited activity could create dark areas that may encourage antisocial behaviour and reduce perceptions of safety.

Figure 3: Ladysmith Shopping Centre lies at the retail heart of Ashton town centre and contains most of the comparison units

Figure 4: Signs of the Market Square redevelopment as part of the town centre masterplan

Table 1 Ashton-under-Lyne Town Centre Floorspace Composition

GOAD Category	Floorspace at 2025 (sq.m)	Floorspace at 2025 (%)	Floorspace UK Average at 2025 (%)

Uses

Ashton-under-Lyne town centre contains 445 retail, leisure and service units providing 89,024 sq.m of commercial floorspace. The mix of uses shows both strengths and weaknesses in the centre's role and function.

Convenience provision is one of Ashton's key strengths. It accounts for 19,863 sq.m of floorspace (22.3% of the total), which is well above the UK average of 15.3%. The town benefits from a strong choice of national multiple supermarkets, including Asda on Cavendish Street, Aldi on Wellington Road, Lidl on Cavendish Street, Sainsbury's Local on Lord

Sheldon Way, Iceland on Bow Street and M&S Foodhall at Ashton Moss. These operators attract significant footfall and help to meet the day-to-day grocery needs of local residents. While some of the supermarkets are located at the edges of the town centre boundary, pedestrian connections into the retail core are relatively good, helping to support linked trips. The supermarket anchors are supplemented by a variety of smaller independent food retailers, particularly along Old Street and Penny Meadow, including grocers, bakers and international food shops. This range provides diversity and reflects the multicultural catchment of the town centre.

Comparison shopping has declined in recent years but still plays a role in Ashton's offer. Comparison retailing accounts for 21,728 sq.m (24.4% of the total), which is below the national average of 28.7%. The Arcades Shopping Centre and Warrington Street remain the strongest cluster of comparison outlets, accommodating a range of national multiples including Boots, JD Sports, New Look, Sports Direct, Superdrug, Poundland and Peacocks. Outside of these areas, the comparison offer becomes weaker and more fragmented. Stamford Street Central and Old Street contain a mix of independent and value-orientated retailers, including charity shops and discount operators, which reflect the budget end of the market. This shift has reduced the centre's ability to compete with higher-order centres such as Manchester, Stockport and Oldham, but Ashton continues to serve a strong role as a mid-range shopping destination for the local catchment.

Leisure uses account for 14,493 sq.m of floorspace (16.3%) and 82 units (18.4%). Both figures fall well below the national averages, highlighting a weakness in Ashton's role as a leisure destination. Food and drink operators dominate this category, with clusters of cafés, fast food takeaways, pubs and casual dining outlets along Warrington Street, Old Street, Katherine Street and Market Avenue. These businesses serve local residents but there is little in the way of higher-quality restaurants or family-focused dining. Bars and public houses are present but dispersed, meaning there is no strong concentration of evening uses. The town centre lacks major leisure anchors such as a cinema, gym or cultural attraction, with such facilities instead being located at edge-of-centre retail parks. This underlines the limited contribution of leisure to Ashton's vitality, particularly after the close of the retail day.

Retail services are well represented, with 7,803 sq.m (8.8%) of floorspace and 88 units (19.8%), which is above the national average in unit terms. These operators are spread across the centre but are particularly concentrated on Stamford Street Central, Old Street and Katherine Street. Health and beauty services dominate, including hairdressers, barbers, nail salons and tanning shops. Other service uses include opticians, travel agents, laundrettes, repair shops and tattoo parlours. While these contribute to the variety of the town centre, they typically occupy small units.

	Financial and business services are broadly in line with national averages, comprising 4,302 sq.m of floorspace (4.8%) across 33 units (7.4%). These include banks such as NatWest and Santander, as well as estate agents, solicitors and insurance brokers. The majority are located around Stamford Street Central and Katherine Street, close to the civic functions of the town. These services are essential for the local community but do not significantly add to the attraction of the centre for visitors.
Daytime/Evening Economy	The daytime economy in Ashton is centred on the pedestrianised core. Warrington Street, Market Avenue, Bow Street and Staveleigh Way are consistently busy, with the Arcades Shopping Centre, Market Hall and outdoor market acting as strong anchors. These are home to a mix of national multiple retailers and independent traders, providing a degree of choice and convenience that helps sustain regular footfall throughout the day. Ashton Market plays a distinctive role in supporting the local economy, drawing footfall through a diverse mix of traders and regular themed market events. The food and drink sector is modest but present, with cafés, bakeries, fast food outlets, and coffee shops serving town centre workers, shoppers, and college students. By contrast, streets such as Old Street, Katherine Street and Penny Meadow experience noticeably lower activity. These areas contain more independents, retail services and vacancies, which limits their ability to generate consistent footfall. Edge-of-centre supermarkets such as Asda, Aldi, Sainsbury's and M&S Foodhall attract large numbers of visitors, but the majority of these trips are car-borne and not all translate into linked shopping trips within the retail core. The evening economy is limited. While pubs, bars and takeaways are scattered across the centre, they are not clustered in a way that creates a strong evening destination. There are few sit-down restaurants and very limited family-friendly options. Warrington Street and Market Avenue, which are vibrant during the day, quickly quieten after trading hours, leaving activity dispersed in small pockets across the town The Arcades Shopping Centre, Ladysmith Shopping Centre, and the surrounding Warrington Street and Stamford Street corridors form the heart of the retail offer. Though venues like Ashton Library and Art Gallery occasionally host events, expanding the early evening leisure and dining offer would help to extend the activity period and improve perceptions of vitality and safety after dark.
Vacancies	There are a number of vacant units in Ashton-under-Lyne, and the overall level is above the national average. They account for 20,836 sq.m (23.4% of floorspace) and 97 units (21.8% of units), compared with national averages of 14.5% of floorspace and 14.1% of units.

Vacant units are spread across the town centre but are particularly concentrated in the following areas:

- Old Street, where consecutive empty units create long stretches of inactive frontage.
- Katherine Street, which has a mix of smaller independents interspersed with vacant premises.
- The Ladysmith Centre, where large empty units are prominent and reduce activity on the eastern side of the retail core.
- Warrington Street, where despite high pedestrian flows, several larger vacant units create breaks in otherwise strong frontages.

While vacancies are dispersed, their overall scale fragments the shopping environment and undermines the town centre's vitality, particularly away from the Arcades and Market Hall.

Opportunity Sites

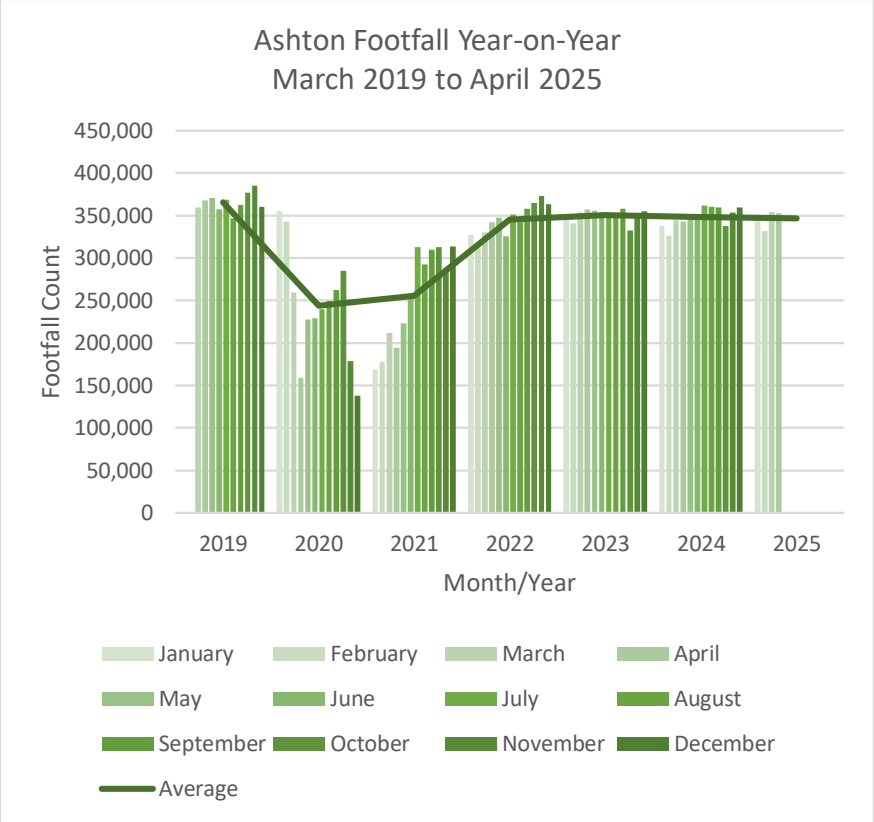

Ashton is undergoing significant regeneration.

The Market Square redevelopment (ref. 23/00561/FUL) which received planning permission in September 2023 is currently under construction and due for completion in Spring 2026. It will deliver ten new kiosks, a canopy structure and public realm improvements to Fletcher Square, Bow Street, Market Avenue and Wellington Road. Several established local traders are relocating to the new kiosks, ensuring continuity and vibrancy.

The town centre regeneration programme is underpinned by the Ashton masterplan, which builds on the transformation of Market Square and the development of St Petersfield within the Ashton Mayoral Development Zone (AMDZ). The masterplan, which has been formally approved, provides a long-term framework for change and identifies a number of key redevelopment opportunities, including:

- Demolition of the Ladysmith Centre and redevelopment to provide around 306 new homes.
- Remodelling of the Arcades Shopping Centre, consolidating retail provision and introducing potential health, leisure or coworking uses.
- Redevelopment of the former bus station site, delivering 466 new homes and new active ground floor uses to improve connections with the railway station.
- Mixed-use redevelopment of the former leisure centre site.
- A residential-led scheme at St Petersfield, with proposals for new apartments, flexible workspace, a hotel and parking.

	Together, these projects have the potential to deliver around 2,400 new homes and substantial new commercial and leisure floorspace. Delivery is being coordinated by the Ashton Regeneration Partnership, which brings together the council and private sector partners.
Pedestrian Flows	Pedestrian activity in Ashton-under-Lyne is strongest during midweek and market days, especially around the Market Hall, Arcades Centre, and Warrington Street. The layout of the town is compact, and the partially pedestrianised areas support ease of movement between key anchors. Footfall decreases in the later afternoon and is noticeably lower in evening periods, particularly in areas beyond the main shopping corridors. The college campus, public sector offices, and market all help to sustain weekday footfall, while specialist events and pop-up markets also boost activity levels on occasion. Peripheral streets and older frontages, particularly around Katherine Street and Margaret Street tend to have lower pedestrian flows and can feel underused outside peak times. Enhancing connections between key destinations and improving visibility and lighting in these areas would help encourage more even footfall distribution. The supermarkets attract significant activity but are located on the edges of the town centre. Pedestrian links from Sainsbury's Local and M&S Foodhall into the retail core are relatively strong, enabling some linked trips, but the Park Parade ring road remains a barrier to wider pedestrian permeability. The Memorial Gardens provide a softer pedestrian and cycle link from surrounding residential areas, helping to improve connectivity. In terms of detailed footfall statistics, the Council has provided us with data collected by Place Informatics between March 2019 and April 2025. These data relate to: • year-on-year footfall; • footfall change from pre-pandemic levels; and • average dwell times. In the first four months of 2025, Ashton town centre achieved a monthly average of 346,755 visitors, representing a year-on-year increase compared to the monthly average of 337,935 visitors over the same period in 2024. The table below shows that footfall fell dramatically in Ashton between 2020 to 2021 during the height of the Covid-19 pandemic, and has declined slightly since the height of its the recovery in 2023 when it achieved an average of 350,383 monthly visitors.

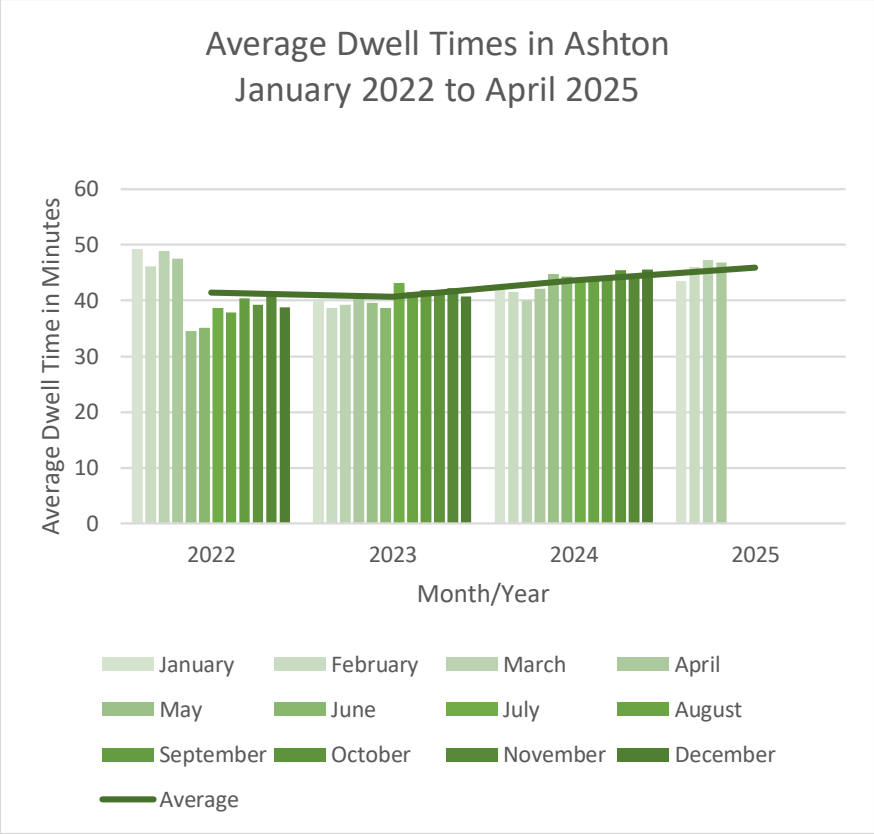

The table below shows the monthly percentage change in footfall in Ashton town centre between pre-pandemic (i.e. 2019 and the early months of 2020) and five years later. For comparison, the table shows the same trends for the North West and the UK as a whole.

The table shows that, aside from a modest uptick in December 2024, footfall levels in both the North West and the UK as a whole have yet to return to their pre-pandemic benchmarks. For much of this period, Ashton proved more resilient than the rest of the region and country. In August 2024, footfall in the town centre exceeded pre-pandemic levels by 3.8% compared to the level recorded five years earlier, whereas the North West and UK experienced falls of -6.5% and -9.1% over the same period.

In January and February 2025, Hyde's footfall was down just -1.7% and -3.3% respectively compared to five years prior, while the North West saw comparable drops of -8.7% and -6.4% respectively and the UK as a whole saw declines of -11.6% and -8.2% respectively.

The table below shows average dwell times in Ashton town centre over the period January 2022 to April 2025. The table demonstrates that the highest dwell times were recorded at the beginning of this period, in the first four months of 2022. On average, however, dwell times have risen over the five-year period, from a monthly average of 41.4 minutes in 2022 to 45.9 minutes in the opening months of 2025.

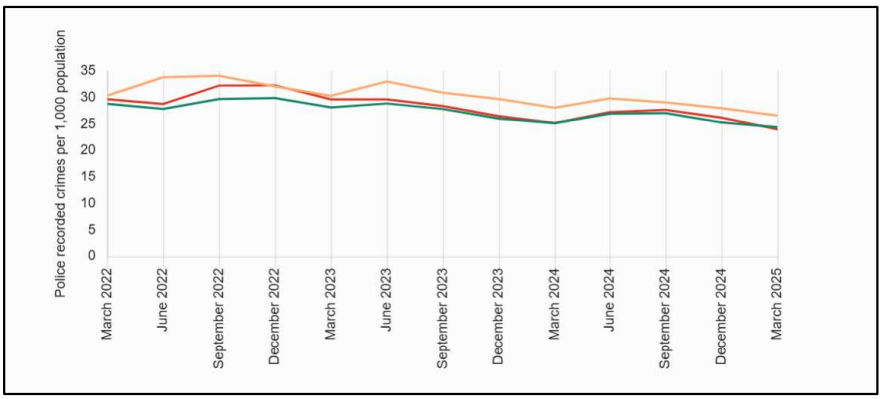

Overall, while footfall in Ashton town centre was severely impacted by the Covid-19 lockdowns and has still not quite recovered to pre-pandemic levels, it has proven to be relatively resilient in more recent years by consistently attracting around 350,000 monthly visitors and increasing its average dwell times to over 45 minutes.

Accessibility	Ashton is highly accessible by road, sitting on the A635 and A670 with quick links to the M60. Car parking provision is adequate, with facilities at Fletcher Street, Mulberry Street and larger car parks next to the Market Hall and Ladysmith Centre. Public transport accessibility is one of Ashton's greatest strengths. The Ashton Interchange on Wellington Road brings together rail, bus and Metrolink services, and will soon become Greater Manchester's first fully integrated Bee Network hub, significantly improving connectivity. Cycling provision is more limited throughout the centre, but Memorial Gardens provide pedestrian and cycle access into the retail core. Within the centre, pedestrianised streets are easy to navigate, although wayfinding could be improved, with limited signage linking key anchors, supermarkets and civic spaces. The town is flat, and streets are wide, making it accessible for people with mobility impairments.
Perception of Safety	Perceptions of safety in Ashton-under-Lyne are mixed. During the daytime, the town centre is generally well-used and active, which contributes to a reasonable level of perceived safety in central shopping areas.

However, in the evening and on quieter peripheral streets, there are concerns about anti-social behaviour, particularly in areas with vacant premises or poor lighting. Graffiti was observed in some areas, contributing to negative perceptions.

Also the lack of restaurants and family-focused venues means the town centre can feel quiet at night, with few areas of concentrated evening use to generate a sense of vibrancy and security.

Source: Police.uk crime in Tameside data

Police recorded crime rates in Tameside have shown a gradual overall decline since 2022. The rate peaked at around 35 crimes per 1,000 population in mid-2022 but has steadily decreased to approximately 26 to 27 crimes per 1,000 by March 2025. While short term fluctuations are evident, particularly small rises in early 2023 and mid-2024, the general trend indicates improving safety and reduced crime levels across the borough. This downward pattern suggests a more secure environment for residents and visitors, which supports efforts to enhance town centre vitality and perceptions of safety.

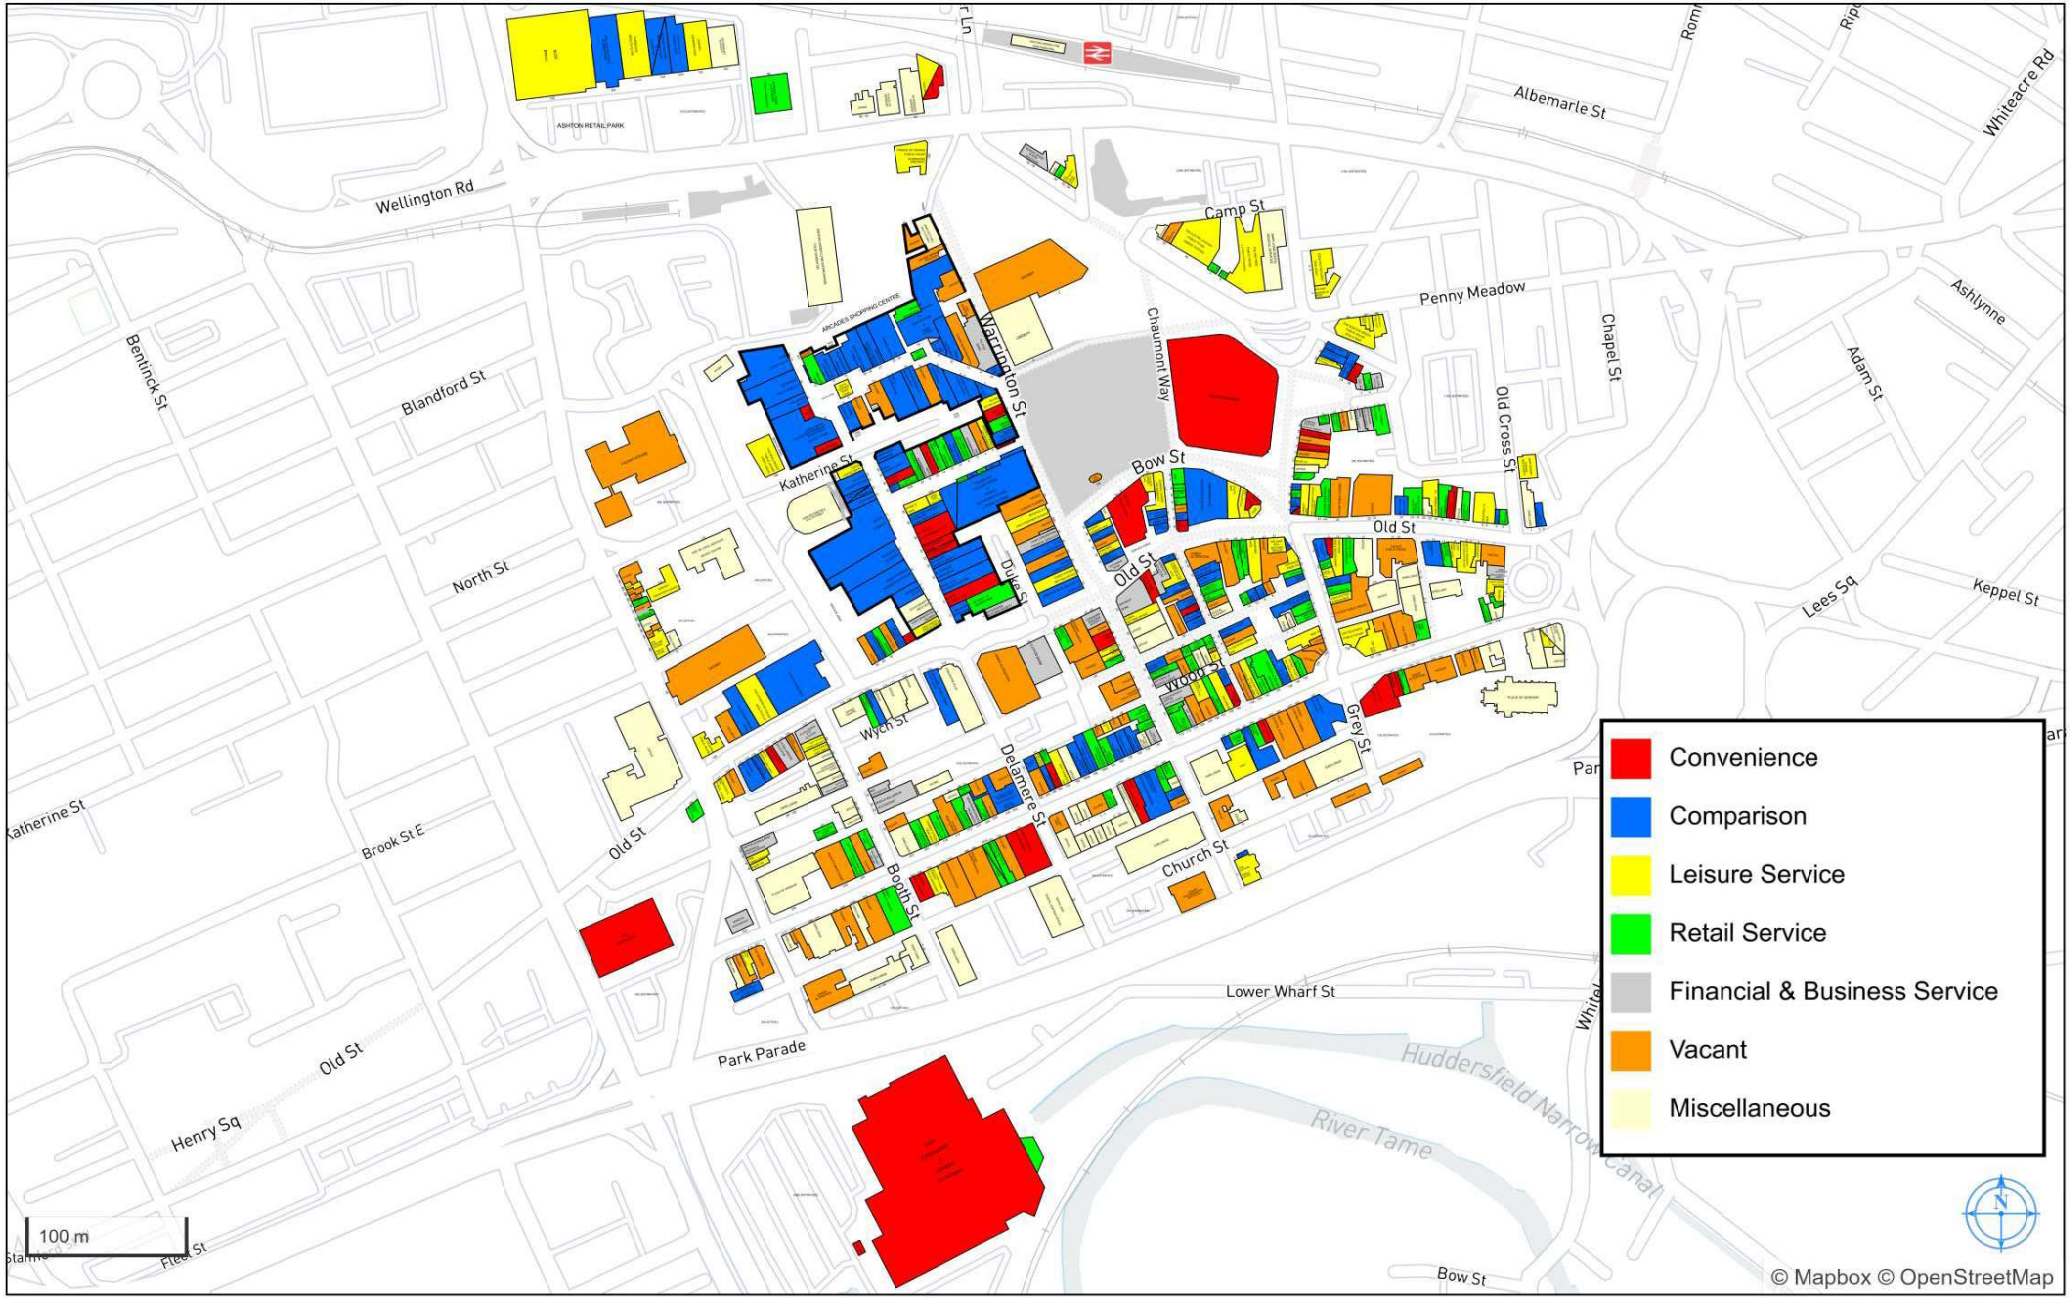

Environmental Quality

Ashton-under-Lyne benefits from a strong historical character, with notable listed buildings including the Ashton Market Hall, Town Hall, and buildings along Stamford Street. The town has a distinct identity rooted in its market heritage, which is reinforced by traditional architecture and civic spaces.

The public realm has undergone recent improvements around Warrington Street, the market area, and Civic Square, with new paving, seating, and landscaping. These enhancements have improved the pedestrian experience and visual appearance of core areas.

However, the environmental quality in some secondary streets remains inconsistent, with narrow pavements, poor surfacing, and inactive frontages contributing to a sense of neglect for instance around Fleet Street. Another observation was bins placed outside some retail units and dwellings for instance around Wood Street and Howard Street, which affected the appearance of the retail units on that part of the centre.

	Memorial Gardens provides valuable green space within the town centre boundary, offering relief from the built-up environment. In addition, street trees on Swan Street, Market Street and Old Street enhance environmental quality and help soften the urban setting. However, aside from these features, there is little other green infrastructure in the retail core.
Conclusions	Ashton-under-Lyne continues to perform an important role as Tameside's main shopping and service centre. It is anchored by strong convenience provision and national multiples within the Arcades and Warrington Street. However, it faces major challenges, including high vacancy levels, and limited leisure and evening uses. The pedestrianised core around Warrington Street and Market Square is the strongest area of vitality, but other streets such as Old Street, Katherine Street and Penny Meadow are weaker, with high vacancies and fragmented activity. The lack of family-friendly restaurants and leisure uses reduces Ashton's appeal as an evening destination. Wayfinding is also poor, making it harder for visitors to navigate confidently between supermarkets, civic buildings and regeneration sites. On the positive side, the centre benefits from Memorial Gardens and street trees, which add greenery and improve environmental quality. Public transport links are excellent, and the pedestrianised high streets remain vibrant. The ongoing regeneration programme, including the Market Square redevelopment, remodelling of the Arcades and redevelopment of the Ladysmith and former bus station sites, offers the potential to consolidate the retail core, diversify uses, improve the environment and introduce much-needed new housing. Overall, Ashton-under-Lyne performs well as a centre, and with the scale of planned regeneration, combined with improvements to wayfinding and the diversification of its leisure offer, provides a strong opportunity to reposition it as a vibrant, modern and sustainable town centre within Greater Manchester.

Denton Town Centre

Description	Denton is a town centre[1] within Tameside, located approximately 5 miles east of Manchester city centre. It accommodates 170 retail, leisure and service units, providing 32,011 sq.m of commercial floorspace. The town centre is structured around two complementary components. To the north sits Crown Point Shopping Park, a modern, large-format shopping destination comprising a range of large-format national multiple convenience and comparison operators, including Aldi, TK Maxx, Boots and JD Sports, alongside national multiple leisure operators including McDonald's and Starbucks. To the south, Market Street, Manchester Road and Hyde Road form the traditional high street core, providing a mix of independent shops, services and food and beverage uses. Victoria Park lies directly south of the centre, offering a major green space and leisure amenity. The M67 motorway runs immediately north of the centre and Junction 24 of the M60 is within less than 1km, providing excellent road accessibility, while Manchester Road/Hyde Road form the key east–west public transport spine. This accessibility, combined with a broad retail, leisure and service mix, means Denton functions strongly as a town centre. It should be noted that the Goad survey area is smaller than the adopted town centre boundary. While Goad captures the traditional core, the adopted boundary also includes Crown Point Shopping Park and Morrisons at the eastern edge, both of which are key anchors.

Figure 1: Denton town centre is served by a variety of retail uses that contribute to the overall health of the centre.

Figure 2: Morrisons together with Lidl serve as the main convenience anchors in the town centre.

[1] Within the currently adopted development plan (the UDP), Denton is defined as a 'district centre' but has been referred to as a 'town centre' in subsequent documents

Source: Town centre composition based on boundary as defined by Experian Goad and derived from Nexus Planning Survey of May 2025; UK Average from Experian Goad Report of May 2025.

It is important to note that for the purposes of the composition of Denton town centre, the figures above and cited in the analysis below, do not include Crown Point Shopping Park.

Uses

Denton's mix of uses demonstrates its strength as a convenience and leisure-led centre, with low vacancies and above-average service provision. It should be noted that the composition analysis presented in this health check is based on the Goad survey area, which is smaller than the adopted town centre boundary.

While Goad captures the traditional retail and service core around Market Street and the historic high street, the adopted boundary also encompasses Crown Point Shopping Park and other edge-of-centre uses. These additional anchors play a major role in Denton's performance, but as noted above, the composition of Crown Point is not captured in the Goad data.

Convenience provision is a major strength of the wider centre offer, accounting for 32.1% of floorspace compared with 15.3% nationally, and 8.8% of units compared with 9.3% nationally. Denton's convenience offer is dominated in part by the three larger supermarkets: Aldi at Crown Point Shopping Park (not included in the figures), the Lidl on Hyde Road and the Morrisons store also on Hyde Road, at the eastern edge of the centre.

	These larger foodstores are supplemented by smaller independent convenience stores and specialist food retailers on Market Street. This combination ensures Denton performs strongly in both main food shopping and top-up grocery trips. Comparison goods are lower than national averages, accounting for 16.2% of floorspace compared with 28.7% nationally, and 16.5% of units compared with 26.1% nationally. Crown Point strengthens this sector through national multiples such as Next and TK Maxx, alongside value fashion and bulky goods outlets (although not included in the composition data), while the traditional centre contains independents and charity shops. Although the offer lacks the depth to compete with Ashton-under-Lyne or Manchester city centre, it does provide for an important day-to-day offer including pharmacies, DIY retailers, toys and games, furniture and pet shops. Leisure provision is a particular strength, accounting for 32.1% of floorspace compared with 27.7% nationally, and 33.5% of units compared with 26.5% nationally. Food and beverage uses, pubs, and takeaways are concentrated along Market Street and Hyde Road, contributing to activity throughout the day and evening. While provision is extensive, it is weighted towards pubs and takeaways, with fewer family-friendly or cultural venues. Retail services are strongly represented, accounting for 12.0% of floorspace compared with 7.2% nationally, and 26.5% of units compared with 15.8% nationally. These include health and beauty operators, barbers, opticians and repair shops, clustered particularly along Market Street. This breadth reinforces Denton's role as a key local service hub. Although not included within the retail service sector, the centre also includes medical centres and diagnosis centres which provide an important amenity to the local catchment. This sector is slightly below national averages, accounting for 3.2% of floorspace compared with 6.1% nationally, and 7.1% of units compared with 7.9% nationally. Denton contains a modest range of banks, estate agents and professional services, sufficient to meet local needs but limited in scale.
Daytime/Evening Economy	The daytime economy in Denton is strong, supported by the larger format convenience operators comprising Morrisons, Aldi and Lidl, operators which open later into the evening at Crown Point Shopping Park, and a wide range of services. Footfall is consistent, with linked trips between Crown Point Shopping Park and the traditional high street. The evening economy is also stronger than in many neighbouring centres, underpinned by the large proportion of leisure uses (33.5% of units). Activity is concentrated along Market Street and Hyde Road, where pubs, restaurants and takeaways are clustered. However, Crown Point Shopping Park contributes little to evening activity due to early closing hours, and the

	offer is focused more on food and drink than on broader leisure or cultural attractions.
Vacancies	Vacancies are not a major concern in Denton. Levels are well below national averages at 4.3% of floorspace compared to a national average of 14.5%, and 7.6% of units, compared to a national average of 14.1%. Empty premises within the town centre are scattered rather than concentrated in one particular area, which minimises their impact on vitality, the environmental quality and overarching perceptions of the centre. The low vacancy rate also highlights Denton's relative resilience compared with other centres in Tameside.
Opportunity Sites	Whilst reoccupying and repurposing vacant floorspace is often a priority in many centres, Denton contains relatively few unoccupied units and vacancy levels are well below the national average. Most vacant premises are small in scale and dispersed across the centre, limiting the potential for large-scale redevelopment within the boundary. Moreover, Denton is tightly enclosed by residential areas and the M67 motorway, restricting the scope for significant edge-of-centre growth. However, the town centre has benefitted in recent years from significant residential growth on the former Oldham Batteries site, and further schemes are due to come forward adjacent to Victoria Park on the former swimming baths site, and on the land at the former Denton Centre on Acre Street, both of which will help to encourage additional town centre living and draw in additional footfall to the operators in the town centre. Furthermore, planning permission was granted on 5th February 2025 on Market Street to convert and extend numbers 16 to 18, to create a mixed-use scheme comprising a foodhall, seating areas, private events space and workspace (reference 24/01092/FUL). This will improve the overarching leisure offer of Denton town centre adjacent to the new housing development on Victoria Street (adjacent to the park) and regenerate and otherwise relatively tired terrace of commercial units fronting on to the public square. Denton is also set to benefit from targeted investment and interventions intended to secure its long-term vitality. The most significant of these is the Government's recently announced £301 million national scheme, of which Denton will be a beneficiary. This programme includes the reconfiguration of Crown Point junction, alongside improvements to pedestrian and cycle accessibility in the town centre. Although details are yet to emerge, the scheme is expected to enhance connectivity between Crown Point Shopping Park, the high street, and surrounding neighbourhoods. Beyond this, future opportunities are likely to focus on incremental improvements to the public realm, including Market Street and key

	gateways, as well as better integration between Crown Point Shopping Park and the traditional high street. The diversification of the leisure offer, and bringing upper floors on Market Street into active use for residential or workspace, also represent longer-term opportunities to strengthen the town centre's role.
Pedestrian Flows	Pedestrian activity is strongest between Crown Point Shopping Park, Market Street, and Morrisons, reflecting the pull of these key anchors. Market Street serves as the main pedestrian spine, though links between the retail park and the high street are not always clear or attractive. North–south flows are steady, but east–west pedestrian movement is weaker due to the dominance of major roads and traffic. Improving connections between the retail park, Market Street and surrounding neighbourhoods would encourage stronger circulation and longer dwell times. In terms of detailed footfall statistics, the Council has provided us with data collected by Place Informatics between March 2019 and April 2025. These data relate to: • year-on-year footfall; • footfall change from pre-pandemic levels; and • average dwell times. In the first four months of 2025, Denton town centre achieved a monthly average of 118,903 visitors, representing a year-on-year increase compared to the monthly average of 114,332 visitors over the same period in 2024. The table below shows that footfall fell dramatically in Denton between 2020 to 2021 during the height of the Covid-19 pandemic, and has declined very slightly since the height of its recovery of 2022 when it achieved a monthly average of 121,643 visitors.

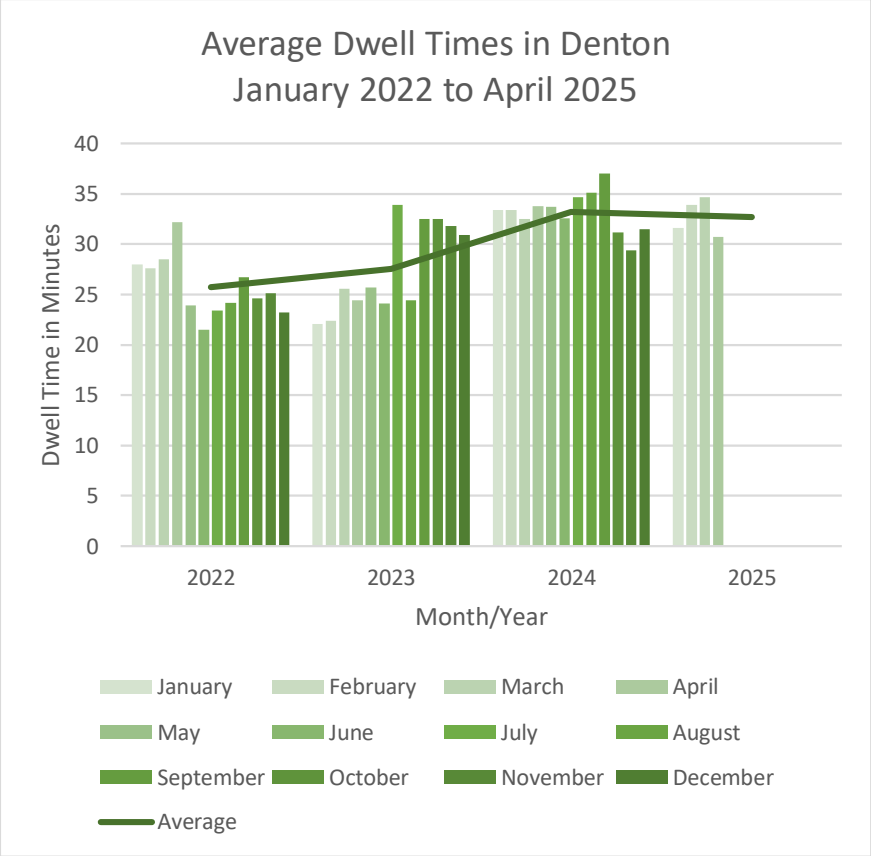

The table below shows the monthly percentage change in footfall in Denton town centre between pre-pandemic (i.e. 2019 and the early months of 2020) and five years later. For comparison, the table shows the same trends for the North West and the UK as a whole.

The table shows that, aside from a modest uptick in December 2024, footfall levels in both the North West and the UK as a whole have yet to return to their pre-pandemic benchmarks. For much of this period, the percentage decline in footfall in Denton was broadly in line with and slightly less than the averages for the rest of the region and country. An exception was August 2024, when footfall in the town centre was -11.9% below the level recorded five years earlier, compared to falls of -6.5% in the North West and -9.1% in the UK.

In the opening months of 2025, Denton's level of footfall proved more resilient. In January and February 2025, Denton's footfall was down just -2.4% and -0.8% respectively compared to five years prior, while the North West saw drops of -8.7% and -6.4% respectively and the UK experienced falls of -11.6% and -8.2% respectively over the same period.

The table below shows average dwell times in Denton town centre over the period January 2022 to April 2025. The table demonstrates that dwell times have risen overall between 2022, when the average was 25.7 minutes, and the first four months of 2025, when the average was 32.7 minutes.

Overall, while footfall in Denton town centre was severely impacted by the Covid-19 lockdowns and has still not quite recovered to pre-pandemic levels, it has proven to be relatively resilient in more recent years by consistently attracting around 120,000 monthly visitors and increasing its average dwell times to over half an hour.

Accessibility

Denton is highly accessible by car, located directly off the M67 and in close proximity to Junction 24 of the M60 and served by the A57/Hyde Road, linking the area to Manchester. This strategic location underpins its role as a shopping and service destination.

Car parking is plentiful, with extensive surface provision at Crown Point Shopping Park complemented by smaller car parks and on-street bays within the high street area. Public transport accessibility is strong, with bus routes along Manchester Road/Hyde Road providing direct links to surrounding towns and Manchester city centre.

However, cycling facilities are limited and pedestrian environments around the major roads can feel hostile, particularly near Crown Point junction, which acts as a barrier between Crown Point Shopping Park and the high street.

Planned investment through a new £301 million Government scheme will specifically target Denton, with proposals to reconfigure roads and junctions, improve bicycle access in the town centre, and enhance

	pedestrian movement. Although detailed designs are not yet available, the programme is expected to significantly improve active travel options, reduce severance at Crown Point, and strengthen accessibility between the centre's key components.
Perception of Safety	Denton is generally perceived as safe and welcoming. Active frontages and low vacancy rates contribute positively to natural surveillance. The concentration of food and drink operators along Market Street ensures activity continues into the evening, reducing feelings of neglect. Street lighting is in place, though CCTV coverage is limited. Continued management of the evening economy will be important to minimise anti-social behaviour.
Environmental Quality	Environmental quality in Denton is mixed. Crown Point Shopping Park provides a modern, well-maintained environment, while Market Street retains a more traditional character. Some shopfronts appear dated and in need of refurbishment, with limited greenery or public seating. However, the range of redevelopments currently underway or planned in the future will assist in enhancing the overarching environmental quality, particularly in respect of the 'traditional' part of the town centre. The proximity of Victoria Park is a positive feature, offering green space on the southern edge of the centre. Public realm investment, particularly along Market Street, would help unify the centre's image and make it more attractive for visitors.
Conclusions	Denton is a strong and resilient town centre that performs well within the Tameside hierarchy. Its strengths lie in excellent convenience provision, a diverse leisure and service mix, very low vacancy levels, and its strategic location adjacent to the M67. Its weaknesses are in comparison goods retailing, which is lower than national averages, and in the lack of diversity within the evening economy. Connectivity between Crown Point Shopping Park and the high street also remains an area for improvement, which would help to draw footfall and expenditure into the heart of Denton town centre. Future opportunities lie in public realm upgrades, diversifying leisure uses, and strengthening pedestrian and cycle connections. With these enhancements, which includes the positive investment already underway in respect of the town centre residential growth and the new foodhall on Market Street for example, Denton will continue to thrive as a vibrant, accessible and resilient centre serving both local residents and a wider catchment.

Droylsden Town Centre

Description	Droylsden is a small town centre located approximately 4 miles east of Manchester city centre. The centre is characterised by a mix of independent shops, national retailers and local services. The centre is anchored by a shopping precinct and benefits from good accessibility, including tram connections via the Metrolink. The centre is focused around the junction of Manchester Road (A662) and Market Street, with secondary frontages along Church Street and High Street. At its core sits the Greenside Shopping Centre, a purpose-built precinct which historically acted as the town's main retail anchor but has suffered from significant long-term vacancy. Although situated just outside the adopted town centre boundary, the Tesco Extra store on Manchester Road exerts a strong functional influence. As a large format foodstore, it generates significant footfall, supports linked trips to other uses within the centre, and reinforces Droylsden's role as a local shopping hub. Droylsden's compact, walkable scale is complemented by excellent accessibility: the Metrolink tramline runs through the heart of the centre with a dedicated stop on Manchester Road, linking the town directly to Manchester and Ashton under Lyne. This gives Droylsden a dual function as both a commuter hub and a local service centre for surrounding residential communities. The town also benefits from a marina and a growing local residential population, both of which support town centre activity and contribute to its sense of place.

Figure 1: The King's Head public house on Greenside Lane contributes to Droylsden's evening and nighttime economy, providing a traditional pub offer that supports local social activity.

Figure 2: Tesco Extra serves as Droylsden's primary retail anchor, generating significant footfall and supporting surrounding businesses. The store and car park form one of the town's main focal points for shopping and service activity.

Uses

Droylsden's mix of uses reflects its primary role as a local convenience and service hub. The convenience provision is strong, accounting for 17.7% of floorspace compared with 15.3% nationally, and 8.5% of units compared with 9.3% nationally. Tesco Extra is the dominant anchor, supplemented by an Iceland in the Greenside Shopping Centre and a variety of independent grocers, butchers and bakeries along Market Street. This provision ensures the centre performs well in meeting the everyday shopping needs of its local catchment.

Comparison goods are underrepresented, accounting for 21.3% of floorspace compared with 28.7% nationally, and 13.7% of units compared with 26.1% nationally. The sector is dominated by discount and value retailers such as B&M, Poundland, Home Bargains and Peacocks, supported by charity shops and a small number of independents. While this offer caters to local demand, it lacks the diversity and higher order multiples required to attract a wider catchment, particularly given the stronger provision in Ashton under Lyne and Manchester city centre.

Droylsden's indoor market, located within the precinct, adds to the variety of the retail offer, providing a platform for smaller and independent traders. Its proposed relocation into a new retail and leisure hub is intended to improve trading conditions and secure its long term role.

	Leisure uses are below average, accounting for 16.0% of floorspace compared with 27.7% nationally, and 25.6% of units compared with 26.5% nationally. Operators include cafés, public houses, takeaways, and restaurants concentrated along Market Street and High Street. While these cater well to local residents, the offer lacks diversity, with few family-oriented or higher-quality venues. Droylsden Library, which includes a community room, along with the Droylsden FC football ground and local medical services, provide important social and community functions for residents and employees. Footfall tends to increase on match and market days, contributing to town centre activity, while the Wharf Point Food Hall on Manchester Road introduces a distinctive and contemporary food and drink offer that helps to broaden the town's leisure mix. Retail services are broadly in line with national averages by floorspace but above average by units, accounting for 6.7% of floorspace compared with 7.2% nationally, and 19.7% of units compared with 15.8% nationally. Operators include health and beauty businesses, barbers, opticians, a post office, and vehicle servicing, which collectively reinforce Droylsden's service function. This sector is significantly under represented, accounting for 2.1% of floorspace compared with 6.1% nationally, and 4.3% of units compared with 7.9% nationally. There are only 5 financial and business service units in the centre, limiting the range of professional and banking services available.
Daytime/Evening Economy	The daytime economy in Droylsden is steady and supported by the Tesco Extra, Iceland, a range of retail services, and commuter flows generated by the Metrolink. Activity is concentrated around Tesco, Market Street, and the tram stop, which together form the busiest focal points within the centre. The town also benefits from a large employment base at the Greater Manchester Pension Fund (GMPF) offices on Manchester Road, where over 150 employees contribute to weekday footfall, particularly through commuting and lunchtime movements. Droylsden FC Football Club provides an additional boost to activity on match days, while the food hall at Wharf Point has introduced a new and popular food and drink offer that is helping to diversify and strengthen the local leisure economy. Most independents and cafés trade between 9am and 5.30pm, while Tesco and the discount multiples operate into the evening. Takeaways and pubs provide some evening activity, but the night time economy remains weak. Evening uses are dispersed rather than clustered, preventing them from creating a mutually reinforcing focus of activity. The absence of family leisure facilities or higher quality restaurants further limits Droylsden's evening offer.
Vacancies	Vacancy is Droylsden's most pressing structural challenge. Vacant floorspace stands at 36.2%, compared with the national average of 14.5%, and vacant units stand at 28.2%, compared with the national average of 14.1%. Both figures are more than double the national benchmarks.

	Vacancies are concentrated in the Greenside Shopping Centre, where long term voids such as the former Poundstretcher have left large format units empty. Additional clusters along Market Street and High Street create stretches of inactive frontage, which reduce vitality and undermine perceptions of safety. While some vacancies reflect short term churn, the scale and persistence of empty units in the precinct point to deeper structural issues that must be addressed through regeneration.
Opportunity Sites	The Droylsden Town Centre Masterplan (2025) identifies several key sites for regeneration: • Greenside Shopping Centre and Concord Suite: Proposed demolition and redevelopment to create a new retail and leisure hub with modernised units, enhanced public realm, and a rehoused indoor market. This project has potential to re anchor the centre and reduce vacancy but relies on investment and occupier demand. • Former Library and Lock Keepers site (Manchester Road): Redevelopment to provide 160 affordable homes, a pocket park, and improved pedestrian links to the marina. This will boost local spending power and support the town's retail and service uses, close to Droylsden Marina. • Hollinwood Canal reinstatement: Reopening of the historic canal branch to create attractive walking and cycling routes, strengthening connections to the marina and enhancing Droylsden's leisure appeal. • Villemomble Square and Droylsden Square: Public realm improvements to reinforce civic identity, encourage dwell time and support pedestrian movement. Together, these projects represent a comprehensive regeneration programme, though delivery will depend on funding and market conditions.
Pedestrian Flows	Pedestrian movement within Droylsden is shaped by both its strengths and limitations. The A662 Manchester Road and the Metrolink line run through the centre, with formal pedestrian crossings in place to allow east–west movement. While these crossings provide necessary connections, the volume of traffic and the scale of road infrastructure mean that movement across the town still feels fragmented and less attractive than north–south movement along Market Street. Market Street functions as the main pedestrian spine but stretches of vacant and inactive frontages reduce its continuity and weaken the overall shopping experience.

The masterplan seeks to address these issues by reinstating the Hollinwood Canal and delivering public realm upgrades. These changes aim to create more attractive and logical walking and cycling routes linking the marina, residential neighbourhoods and the retail core, while also making Market Street and the town squares more inviting places for people to spend time.

In terms of detailed footfall statistics, the Council has provided us with data collected by Place Informatics between March 2019 and April 2025. These data relate to:

- year-on-year footfall;
- footfall change from pre-pandemic levels; and
- average dwell times.

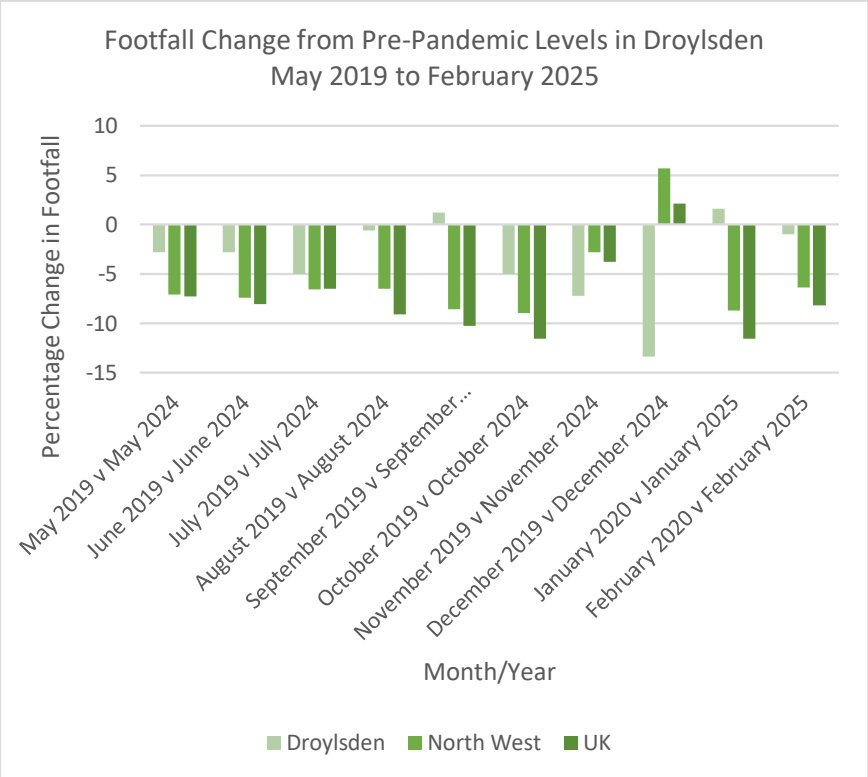

In the first four months of 2025, Droylsden town centre achieved a monthly average of 42,234 visitors, representing a moderate year-on-year increase compared to the monthly average of 40,777 visitors over the same period in 2024. The table below shows that footfall fell dramatically in Hyde between 2020 to 2021 during the height of the Covid-19 pandemic, but has remained largely steady since the recovery of 2022, consistently averaging around 42,000 monthly visitors.

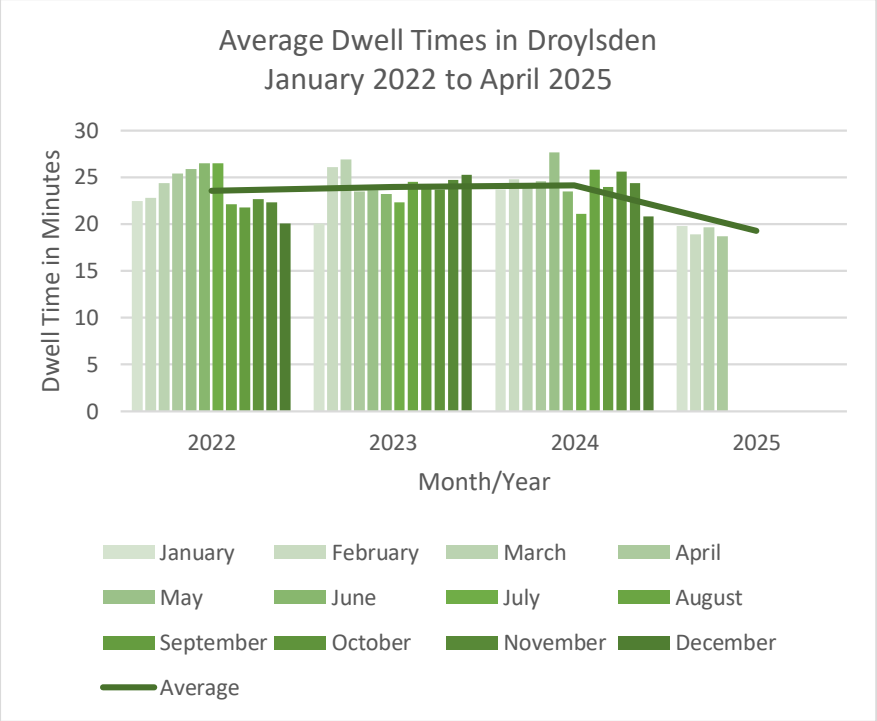

The table below shows the monthly percentage change in footfall in Droylsden town centre pre-pandemic (i.e. 2019 and the early months of 2020) and five years later. For comparison, the table shows the same trends for the North West and the UK as a whole.

The table shows that, aside from a modest uptick in December 2024, footfall levels in both the North West and the UK as a whole have yet to return to their pre-pandemic benchmarks. For much of this period, Droylsden experienced a less pronounced decline than the rest of the region and country. The best relative performance occurred in September 2024, when footfall in the town centre was 1.2% above the level recorded five years earlier, compared to falls of -8.6% in the North West and -10.3% in the UK.

In contrast to the rest of region and country, Droylsden's footfall had largely returned to pre-pandemic averages by the opening months of 2025. In January and February 2025, Droylsden's footfall levels were respectively 1.6% above and -1.0% below those recorded five years prior, while the North West saw drops of -8.7% and -6.4% respectively and the UK experienced falls of -11.6% and -8.2% respectively over the same period.

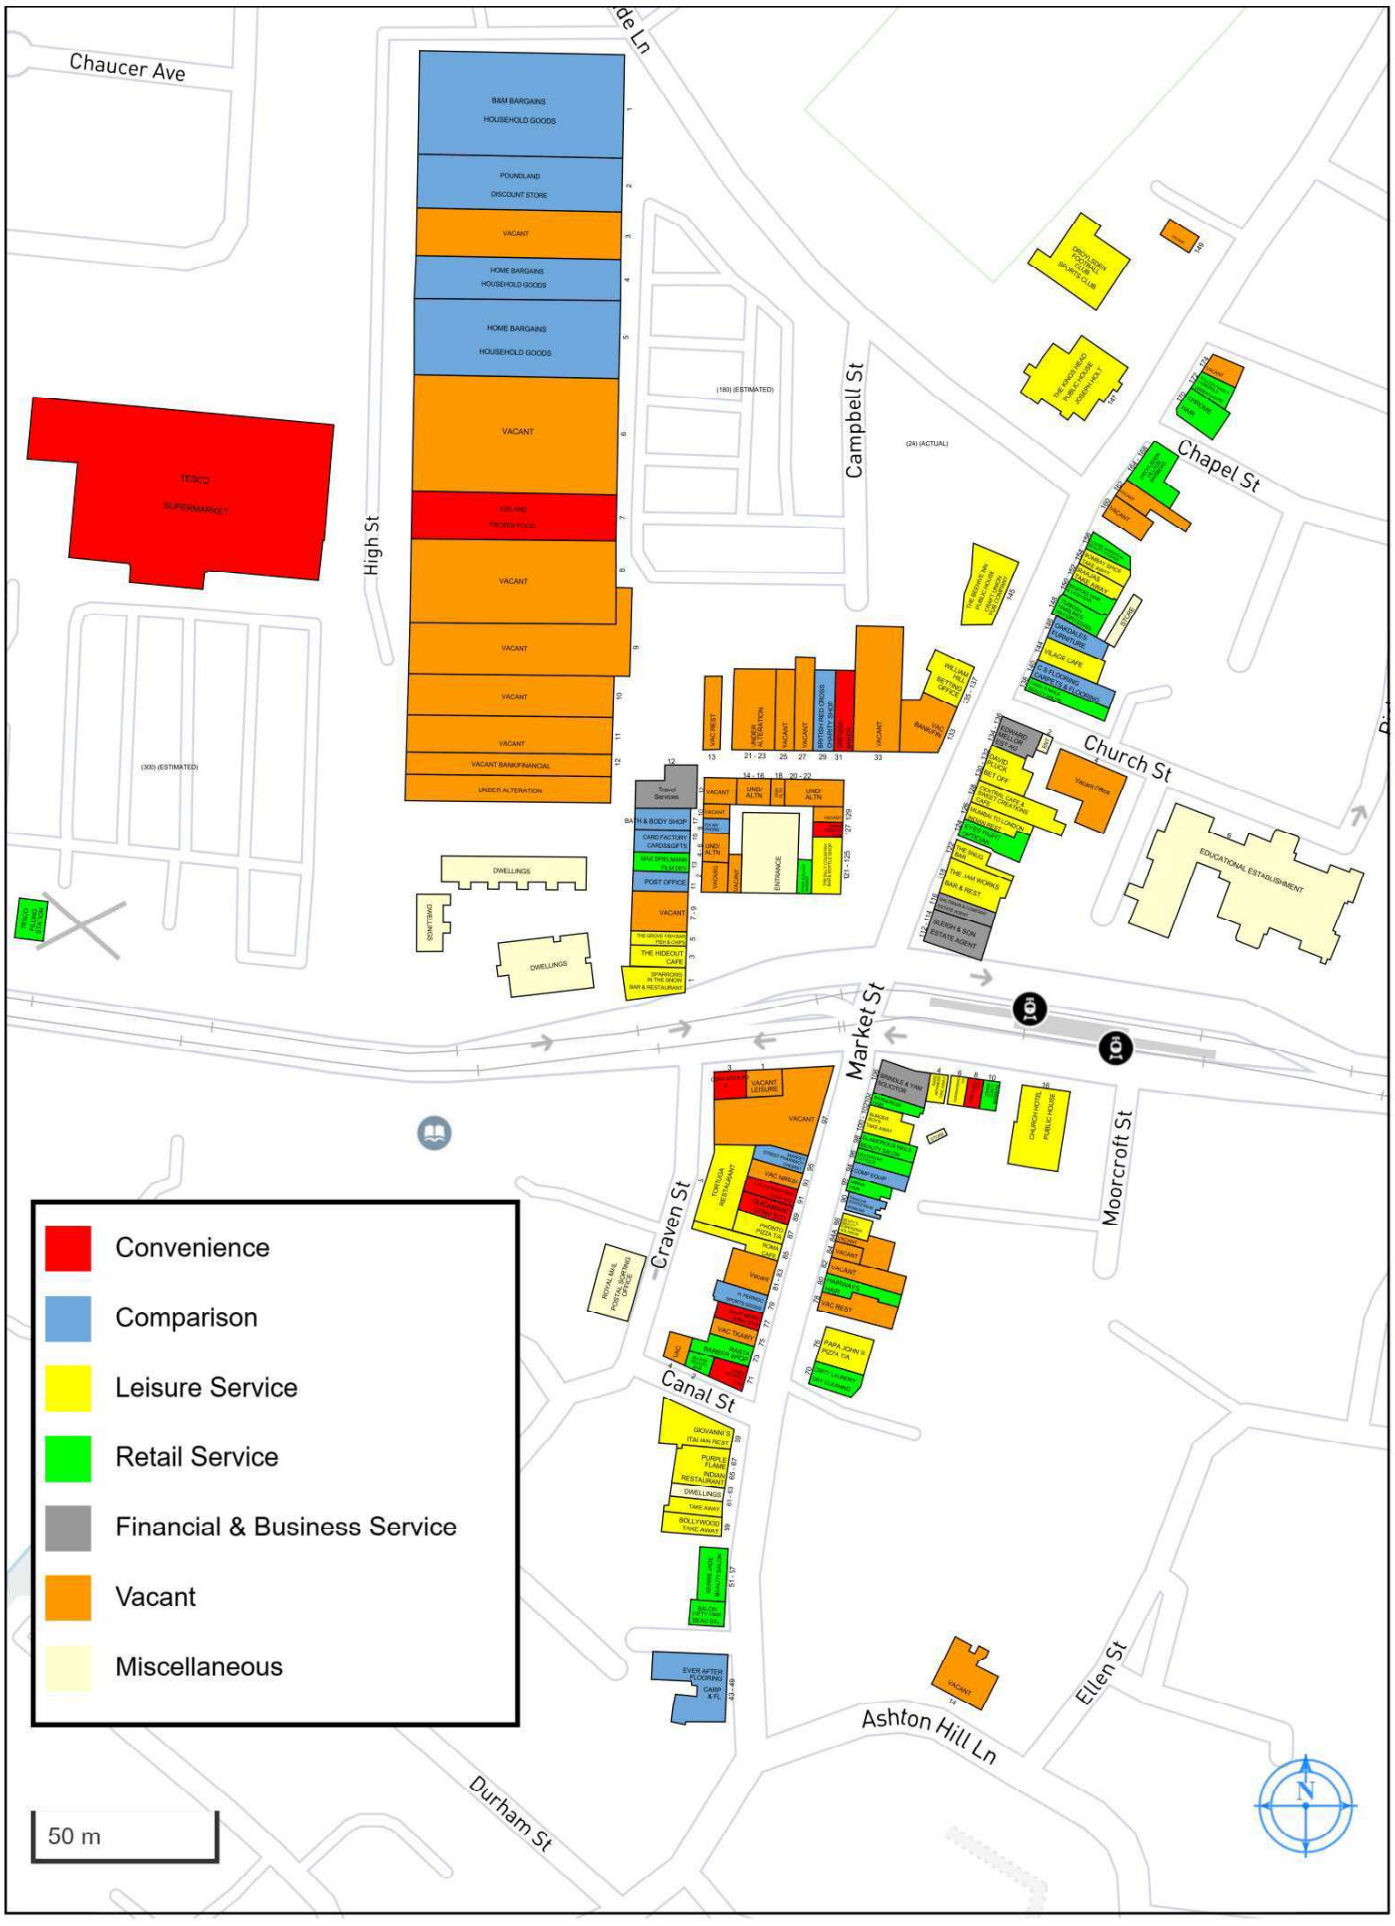

The table below shows average dwell times in Droylsden town centre over the period January 2022 to April 2025. The table demonstrates that the dwell times have remained steady for most of this period, averaging around 24 minutes per visit. However, the first four months of 2025 saw a shorter average dwell time of just 19.3 minutes.

Overall, while footfall in Droylsden town centre was severely impacted by the Covid-19 lockdowns, it has proven to be relatively resilient in more recent years. Footfall has broadly returned to pre-pandemic levels, with the centre consistently attracting around 42,000 monthly visitors. Dwell times have fallen in the opening months of 2025, and ongoing monitoring should be undertaken in order to ensure that this trend does not become entrenched.

Accessibility	Droylsden benefits from excellent public transport accessibility. The Metrolink stop sits at the heart of the centre and provides fast, frequent services to Manchester and Ashton under Lyne, supported by an extensive local bus network. By car, the centre is accessed from Manchester Road (A662), which provides direct links to Manchester and the M60. Tesco Extra offers extensive parking within the boundary, supported by smaller precinct and on street car parks. Cycling facilities are limited, with few dedicated lanes or secure racks. Walking conditions are generally good given the flat topography, though inactive frontages and traffic severance reduce the overall quality of the pedestrian environment.
Perception of Safety	Droylsden feels safe and active during the day, particularly around Tesco, Market Street and the tram stop. However, high vacancy levels within the centre and on key frontages reduce natural surveillance and contribute to a perception of neglect, especially in the evening.

	The centre benefits from street lighting, which helps support evening activity, but there is no surveillance camera coverage. Combined with inactive frontages, this can leave some areas feeling overlooked and less secure after dark.
Environmental Quality	Environmental quality is mixed. Villemomble Square and civic spaces are clean and functional, but the Greenside Shopping Centre and Concord Suite are dated and detract from the town's appearance. Shopfront quality varies, with some independents providing vibrancy and others appearing tired. The GMPF building however offers a contemporary architecture to Manchester Road, and the public realm is dominated by Metrolink route through the centre. The centre lacks greenery, planting and public seating. Proposals for pocket parks, tree planting and Hollinwood Canal Park represent opportunities to improve environmental quality and create a more attractive town centre environment.
Conclusions	Droylsden plays an important role as a local service centre, anchored by Tesco Extra and supported by Iceland, independents and retail services. It is well connected and performs strongly in convenience shopping, ensuring that the everyday needs of its residential catchment and those of the employee population are met. However, the centre faces significant structural challenges. Very high vacancy levels, a weak comparison goods offer and a limited evening economy undermine its vitality and restrict its wider role within the Tameside hierarchy of centres. The Droylsden Masterplan provides a clear and ambitious framework to address these challenges. By redeveloping the shopping centre, delivering new housing, reinstating the canal and investing in the public realm, the town has the potential to re establish itself as a more vibrant, cohesive and attractive centre. At present, Droylsden is a centre experiencing marked decline, but one with substantial potential for renewal if regeneration plans are successfully realised.

Hyde Town Centre

Description	Hyde is the second largest of Tameside's defined centres, providing for 303 retail, leisure and service units amounting to 58,772 sq.m gross. The town centre is focussed around Market Street and Clarendon Square Shopping Centre, with the latter providing for a number of national multiple retailers in the comparison sector and an Indoor Market. The town centre's brick and mortar retailers are complemented by Hyde's Outdoor Market, which comprises 48 stalls and regularly holds specialist events. Hyde performs well in fulfilling the retail needs of local residents. It contains a number of national multiple comparison operators, concentrated within Clarendon Square Shopping Centre and around Market Place. The town centre has a relatively high proportion of independent non-food traders and these sell a wide range of goods including antiques, clothing, furniture, and household items. The Markets add to this variety and concentrate footfall on a central focal point.

Figure 1: Clarendon Square Shopping Centre lies at the retail heart of Hyde town centre and contains its Indoor Market

Figure 2: Peripheral Asda and Morrisons stores provide key convenience anchors and bring footfall to the west and east of the town centre

Figure 3: Hyde's Grade II Listed Town Hall lies adjacent to Market Place and contributes to the attractiveness of this part of the centre

Figure 4: Market Street provides for a diverse range of mostly independent and small-scale retail, leisure and service operators

Uses

Like many town centres across the UK, Hyde's comparison retail offer has been impacted in recent years by a number of national trends including the growth of online shopping, the Covid-19 pandemic, and rises in the cost of living. As a result, since the time of the Council's last Retail Study of 2018, the centre seen the loss of prominent retailers such as Wilko and a decline in its overall share of non-food retailing.

Nonetheless, Hyde's proportion of comparison retail units is in line with the current national average, albeit that the proportion of floorspace in this use has fallen to below average. The town centre continues to provide for a number of national multiple comparison operators including Boots, Peacocks, and Poundstretcher, which are concentrated within Clarendon Square and around Market Place. It also has a relatively high proportion of independent non-food traders and these sell a wide range of goods including antiques, clothing, furniture, and household items. It should be noted that this provision is supplemented by the town centre's Markets and by the broad range of non-food goods sold in its larger supermarkets. While representation is weighted towards the discount or value end of the market, overall the offer fulfils the vast majority of local residents' day-to-day non-food shopping needs.

Similarly, the large Morrisons and Asda superstores and the Food Warehouse supermarket at the peripheries of the town centre contribute to a strong convenience retail offer that caters effectively to the everyday needs of the local community. Indeed, Hyde's proportion of food retail floorspace is more than double the national average, primarily due to the

	presence of these large foodstores. The share of convenience units is also above average (although to a much lesser extent). Independent convenience provision in the town centre is fairly diverse, and again supplemented by the Market traders, which focus on traditional and specialist food products. Conversely, Hyde's proportions of leisure units and floorspace fall well below UK averages. There is a lack of large floorplate leisure uses, reflecting the size and format of the majority of the commercial stock. Inspite of this, the Living Room, which is a themed café/ vintage lounge and vintage car fairs held at the town hall offer something different to community. As explained in more detail in the 'Daytime/Evening Economy' section below, family-oriented evening economy uses are particularly under-represented for a town centre of Hyde's size. That said, the centre does contain a reasonably good variety of food and drink operators – including some national multiples such as Starbucks, Costa and Subway – and there is a small cluster of pubs around Market Place. With regard to the financial & business services sub-sector, Hyde's level of provision is below UK averages in terms of both floorspace and units. There is, however, representation from a good range of uses including accountants, estate agents, financial advisors, pawnbrokers, and solicitors. Importantly, in the context of broader trends such as the move towards online banking, the town centre retains two national multiple banks (these being the Halifax and Natwest branches both located at Market Place). Retail services provision exceeds national floorspace and unit averages, again reflecting the important role Hyde plays in serving its residential catchment. More than 70% of these operators are health & beauty outlets, primarily independents. These are complemented by a range of other service units, including opticians, a petrol filling station, a post office, travel agents, and undertakers.
Daytime/Evening Economy	Hyde's daytime economy is underpinned by its strong day to day retail and service offer, which meets the needs of local residents. The opening times of the town centre's shops and service operators are generally limited to normal business hours, although there are some exceptions. Notably, the Morrisons and Asda supermarkets close at 10pm and 12am respectively on weekdays. Healthy Hyde, which opened in 2023 within Clarendon Square Shopping Centre, has further strengthened the daytime offer by providing health services as part of Tameside's Primary Care Network. The addition of this facility has brought more regular footfall to the centre throughout the week. Similarly, the Living Room, a themed café and vintage lounge, offers something distinctive for the community and adds variety to the local café scene. Events such as artisan markets and vintage car fairs held around the Town Hall also provide opportunities to attract visitors and could play an important role in boosting footfall in future. The evening economy, however, remains limited for a centre of Hyde's size and role. While there is a small cluster of pubs around Market Place and

	some restaurants along Market Street, takeaways comprise the dominant late opening use. Whilst takeaways can contribute to evening footfall to a degree, they do not typically encourage people to stay in the centre for long periods. Furthermore, in recent years, the growing popularity of food delivery platforms such as JustEat and Deliveroo has reduced physical visits to takeaway outlets, further diminishing evening activity in town centres that rely on these operators to generate footfall. Addressing the current lack of a well rounded evening economy is a key theme of the Hyde Town Centre Masterplan, discussed further in the 'Opportunity Sites' section. Among other aims, the Masterplan seeks to encourage the development of quality food and beverage outlets and a broader mix of uses that will attract visitors, particularly families, to spend more time in the town centre during the evenings.
Vacancies	While the town centre's floorspace vacancy rate is relatively low, its unit vacancy rate is above the national average. This suggests that Hyde suffers from an oversupply of small-scale premises that were previously in retail use. This issue is most prevalent along Market Street, although there are empty units scattered throughout the town centre including within the Clarendon Square Shopping Centre. The largest vacancy is the former Wilko unit at 54 Market Street, which measures approximately 1,150 sq.m gross. The remaining vacancies are all under 500 sq.m, with the average size of a vacant unit being 127 sq.m. The clusters of inactive street frontages arising from the high unit vacancy rate and shuttered takeaways, especially along Market Street and in the secondary streets, detract somewhat from the environmental quality of parts of the centre. Realising the opportunities to reoccupy and repurpose Hyde's vacant premises is a key priority of the Hyde Town Centre Masterplan (discussed below).
Opportunity Sites	In February 2024, Tameside Council approved a Masterplan for Hyde town centre.[1] With support and investment from the UK Shared Prosperity Fund and the government's High Street Task Force Accelerator Programme, the town centre is set to benefit from significant ongoing and future interventions aligned with the Masterplan and its regeneration objectives. The works identified in the Hyde Town Centre Masterplan include: • Repurposing the Town Hall and the adjacent Market Square as a regionally significant cultural destination. Creating a flexible space to support a programme of cultural and community events and activities to attract visitors into the town centre.

[1] Hyde Town Centre Masterplan, https://www.tameside.gov.uk/TamesideMBC/media/policy/Lets-talk-about-Hyde-A-masterplan-for-Hyde-Town-Centre-(compressed).pdf [accessed 26th September 2025].

	• Pedestrianisation of key areas of the town centre, creating a safe, attractive, green public realm. • Enhancing connectivity across the town centre, providing wider access to more sustainable and healthy ways to travel, creating a walkable/cycle-friendly town. • Redevelopment of the Clarendon Square Shopping Centre, helping to improve permeability of visitors through the town centre and considering its offer and how it interacts with the neighbouring streets. • Relocation of the existing Indoor and Outdoor Market facilities into new, flexible units on Market Place, diversifying their offer within a prime location. • Considering key development sites within the town centre to create attractive gateways into the area and diversify the town centre offer. • An application (ref: 25/00324/FUL) was submitted in April 2025 to redevelop the former Hyde library into 102 residential units. While the Masterplan is largely illustrative at this stage and its recommended developments are envisaged to take place over a 20-year timeframe, its initiatives are complemented by a range of shorter-term regeneration efforts.[2] These are led the Hyde Accelerator Partnership and Tameside Council, with funding from the High Street Task Force, and include: • Upgrades to Hyde Market Ground, including the refurbishment of the market stalls, new planting, and street furniture. • Tree maintenance, decorative lighting, and bunting in the town centre with further enhancements planned for Millennium Park including a recently installed mural. • Community events such as Halloween celebrations, Lantern Parade, and Christmas Markets as well as arts and community events. Taken together, the Hyde Town Centre Masterplan and the ongoing shorter-term interventions listed above represent a coordinated and strategic approach to regeneration. We would anticipate that these projects will catalyse further public and private sector investment and that there are substantial positive indicators for the future of the town centre.
Pedestrian Flows	On the day of our site visit, footfall in Hyde was concentrated around the central Market Place and Clarendon Square area and dropped off notably along Market Street, particularly towards the south. There was significant foot and car traffic around Hyde's Asda and Morrisons supermarkets, but we observed a few linked trips between either of these stores and the traditional 'heart' of the town centre. Both stores feel somewhat disconnected from the rest of the centre due to the separation distances and the physical barriers formed by the intervening roads. Similarly, the linkages between Hyde's rail and bus stations and the town centre are in need of improvement.

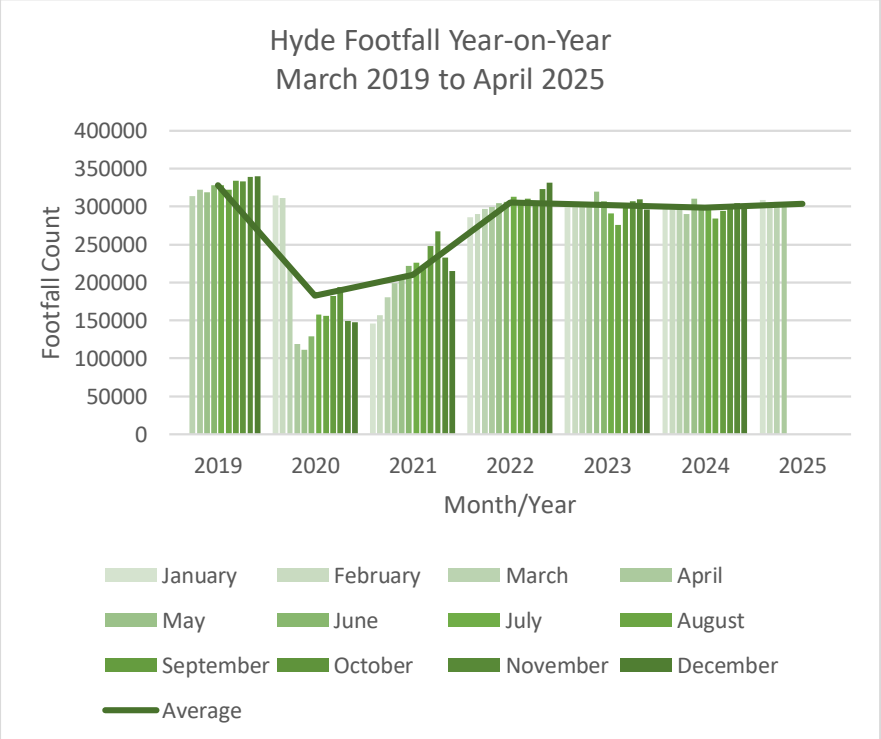

[2] Tameside Metropolitan Borough Council Press Release of 07/08/2025, Hyde's regeneration efforts bring vibrancy and events to town centre - Tameside MBC [accessed 26th September 2025]

The Hyde Town Centre Masterplan identifies several opportunities to enhance wayfinding and key pedestrian corridors around the centre.

In terms of detailed footfall statistics, the Council has provided us with data collected by Place Informatics between March 2019 and April 2025. These data relate to:

- year-on-year footfall;
- footfall change from pre-pandemic levels; and
- average dwell times.

In the first four months of 2025, Hyde town centre achieved a monthly average of 303,461 visitors, representing a moderate year-on-year increase compared to the monthly average of 296,682 visitors over the same period in 2024. The table below shows that footfall fell dramatically in Hyde between 2020 to 2021 during the height of the Covid-19 pandemic, but has remained largely steady since the recovery of 2022, consistently averaging around 300,000 monthly visitors.

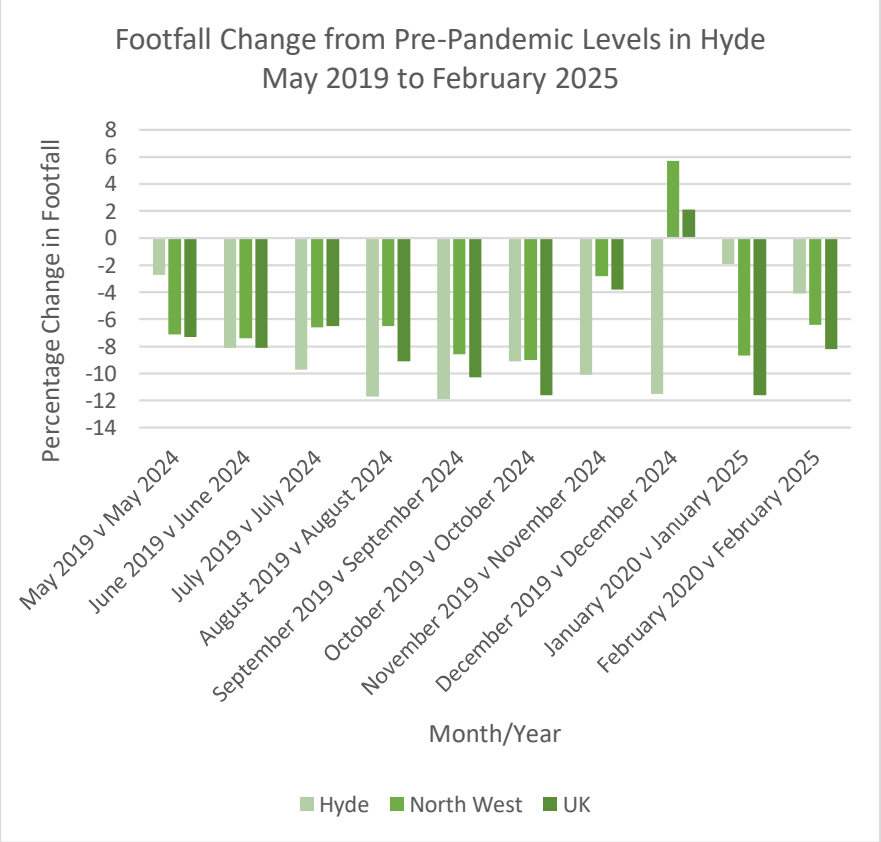

The table below shows the monthly percentage change in footfall in Hyde town centre between pre-pandemic (i.e. 2019 and the early months of 2020) and five years later. For comparison, the table shows the same trends for the North West and the UK as a whole.

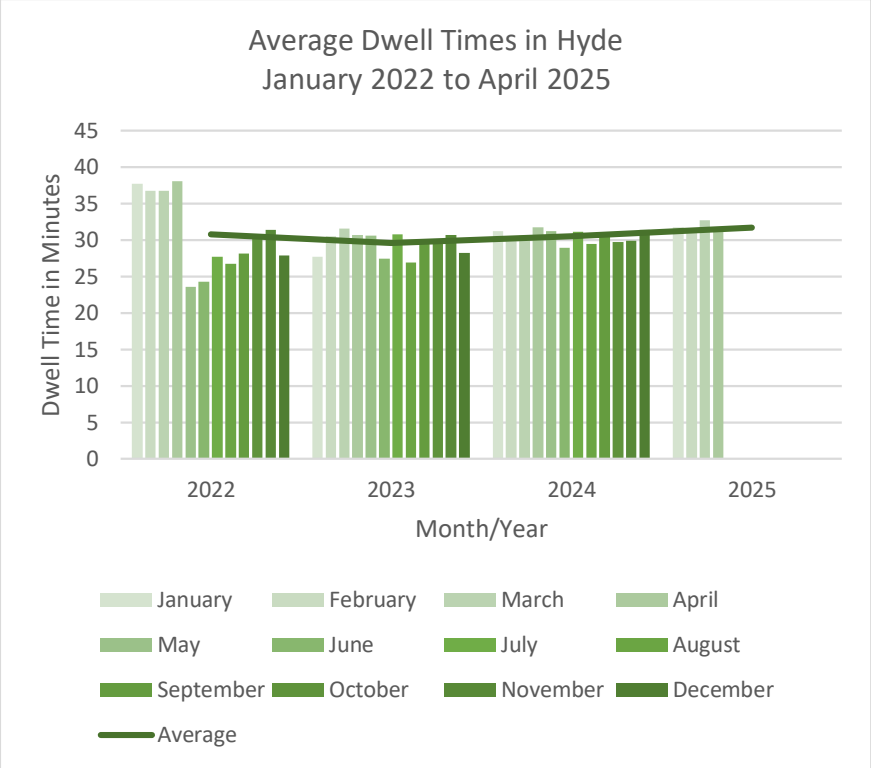

The table shows that, aside from a modest uptick in December 2024, footfall levels in both the North West and the UK as a whole have yet to return to their pre-pandemic benchmarks. For much of this period, Hyde experienced a more pronounced decline than the rest of the region and

country. The lowest point occurred in September 2024, when footfall in the town centre was -11.9% below the level recorded five years earlier, compared to falls of -8.6% in the North West and -10.3% in the UK.

A reversal of this trend began in the opening months of 2025, however, when Hyde's level of footfall proved more resilient. In January and February 2025, Hyde's footfall was down -1.9% and -4.1% respectively compared to five years prior, while the North West saw drops of -8.7% and -6.4% respectively and the UK experienced falls of -11.6% and -8.2% respectively over the same period.

The table below shows average dwell times in Hyde town centre over the period January 2022 to April 2025. The table demonstrates that the highest dwell times were recorded at the beginning of this period, in the first four months of 2022. On average, however, dwell times have remained fairly stable, rising very slightly from an average of 30.8 minutes in 2022 to 31.7 minutes in 2025.

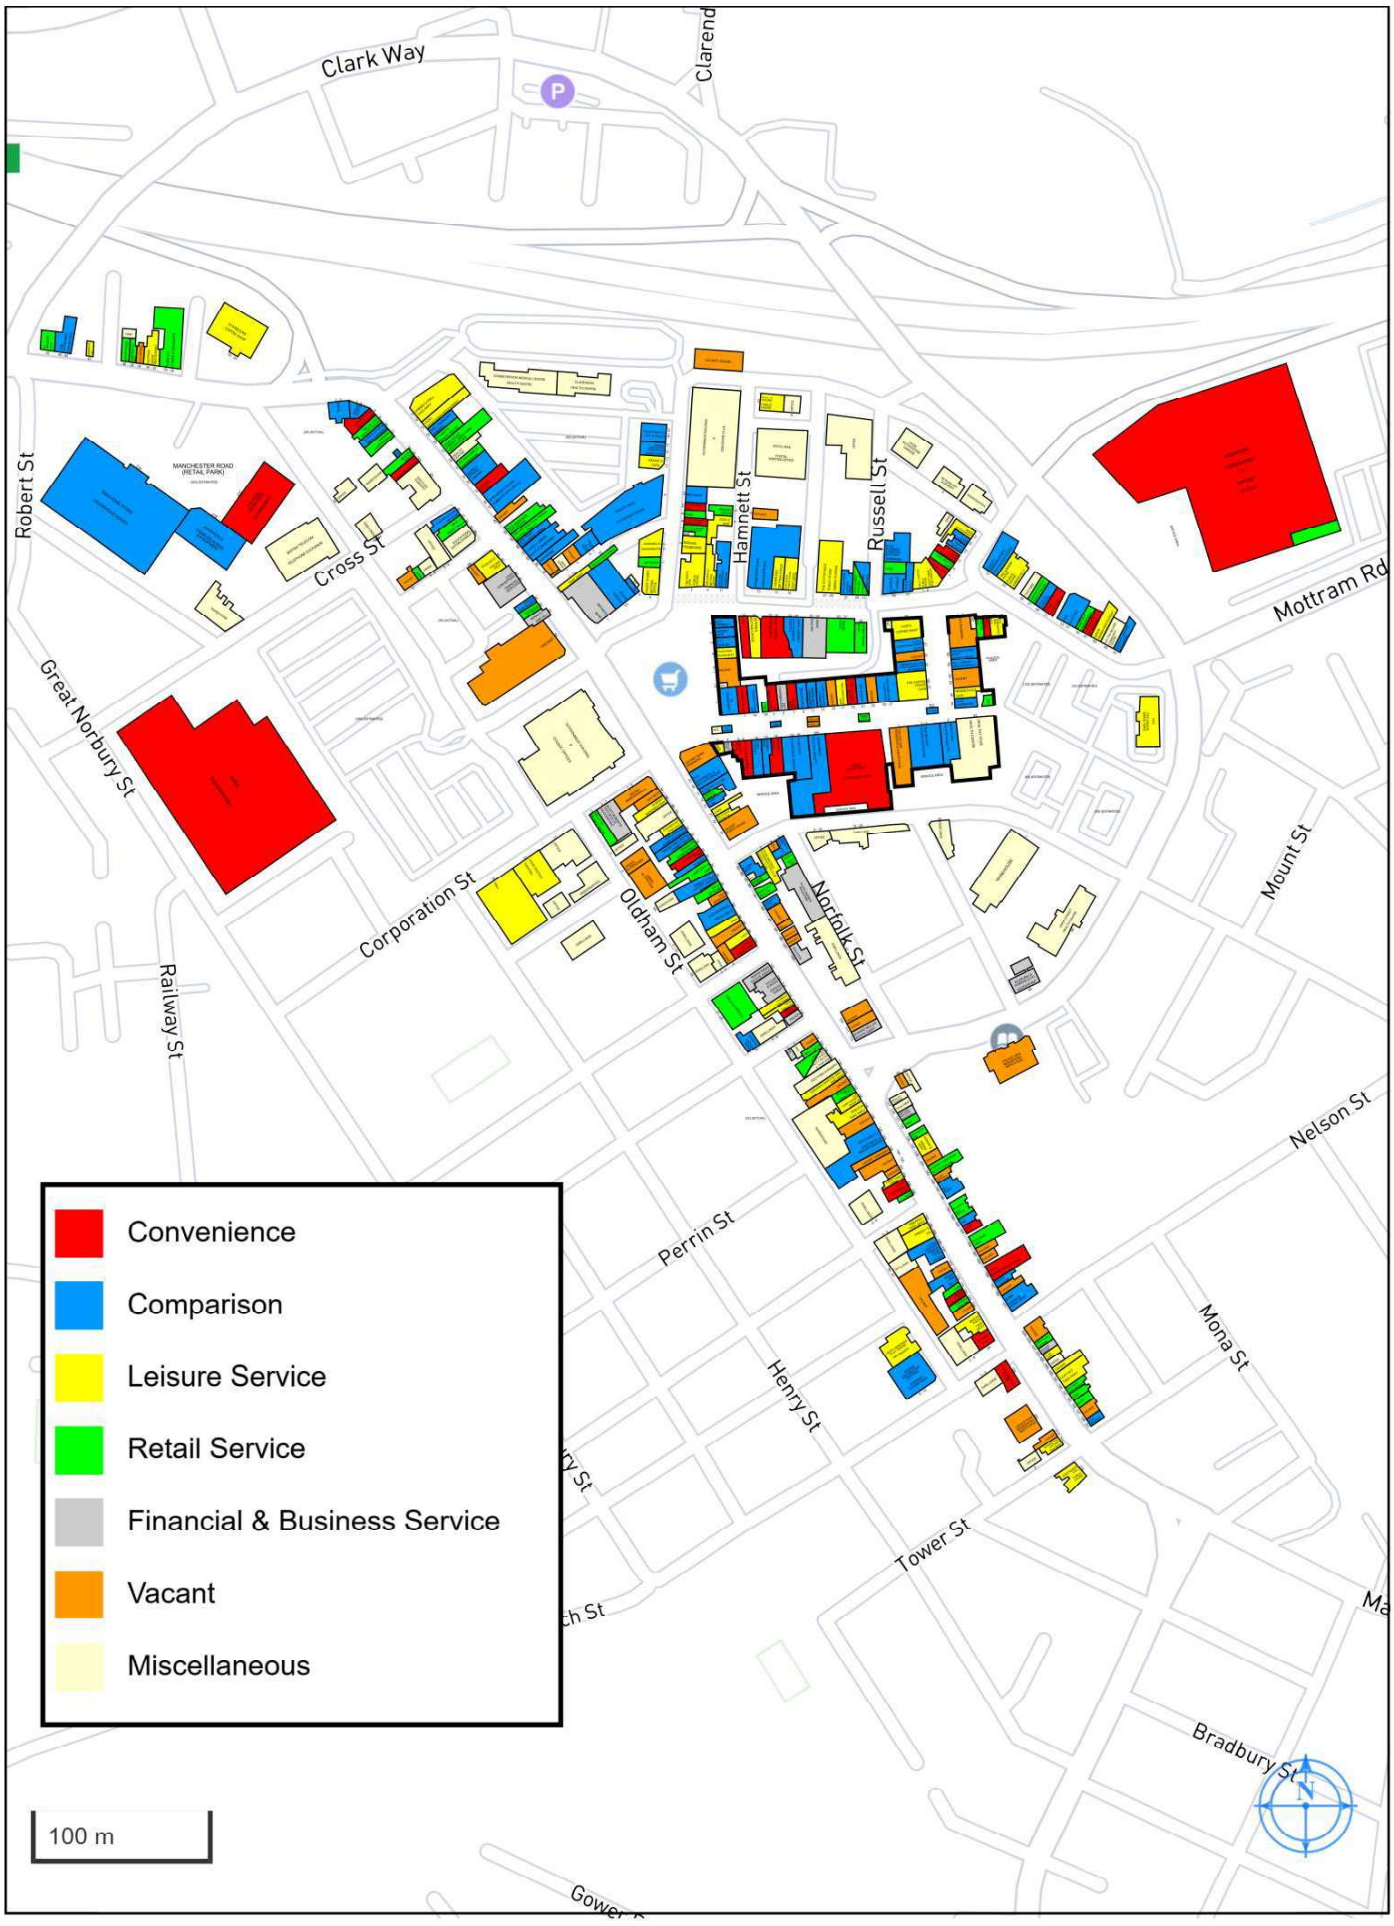

Overall, while footfall in Hyde town centre was severely impacted by the Covid-19 lockdowns and has still not quite recovered to pre-pandemic levels, it has proven to be relatively resilient in more recent years by consistently attracting around 300,000 monthly visitors and achieving average dwell times of around half an hour.

Accessibility	Unlike some of Tameside's other town centres, Hyde lacks its own dedicated Metrolink stop. Nonetheless, it is well-connected to destinations across Tameside and Greater Manchester by road and public transport. While Hyde benefits from its own railway station and a modern bus station on Clarendon Street, linkages between these facilities and the town centre could be improved. The Hyde Masterplan recognises that the current pedestrian routes to/from the transport hubs to the primary shopping area suffer from poor wayfinding and result in a feeling of disconnectedness, and the document proposes a number of interventions to alleviate this issue. Hyde is well-placed to serve the needs of a substantial residential walk-in catchment, and its straightforward layout and generally flat topography make it easily navigable for visitors travelling on foot. The area around Clarendon Square and Market Place is pedestrianised and well-maintained. Market Street can at times attract busy through-traffic, but plentiful crossing points ensure that the road remains easily traversable.
Perception of Safety	With approximately 300,000 visitors a month, Hyde is one of Tameside's busiest centres. The high footfall paired with the linear layout mean that

	the centre benefits from good natural surveillance during the daytime, leading to a general feeling of safety and security throughout. As discussed above, the evening economy is relatively limited, and this can lead to a lack of activity in the town centre after dark. However, street lighting is provided throughout, and the centre's late-opening takeaways do provide some active frontages which alleviate these issues.
Environmental Quality	The environmental quality of Hyde is mixed. The shopping environment in Clarendon Square and in the pedestrianised part of the Market Place is well-maintained and generally pleasant. These areas have benefitted from investment in recent years in new street furniture, and the nearby Grade II Listed Town Hall building is an attractive heritage asset which makes a significant contribution to the environment. In contrast, Market Street and the secondary shopping streets are less uniform and contain a number of takeaway units which are shuttered during the day, which can result in stretches of unattractive and inactive frontages. Overall, however, Hyde town centre's environmental is reasonably good. There is little evidence of litter or graffiti, and its built environment is appropriate to support its function as a town centre which provides for the day-to-day needs of its local catchment.
Conclusions	Overall, Hyde's strengths lie in its broad convenience offer, underpinned by large anchor foodstores and supplemented by a diverse range of independent traders and markets, ensuring that the daily shopping needs of local residents are effectively met. The proportion of comparison units is in line with the national average, and while the quality of representation is weighted towards the value end of the market, this offer nonetheless provides for a wide spectrum of consumer needs. Like many town centres nationally, Hyde has been affected by structural changes in retailing and leisure, as well as the lingering impacts of the Covid-19 pandemic. This is reflected in higher-than-average unit vacancies and a limited evening economy. However, Hyde's vacancy levels in terms of floorspace remain below the national average, and the issues identified are already being actively addressed through the Hyde Town Centre Masterplan. This sets out a clear and ambitious vision for the town, seeking to repurpose underused assets, improve connectivity, diversify uses, and enhance the overall attractiveness of the centre. Footfall trends demonstrate resilience, with Hyde consistently attracting around 300,000 monthly visitors in recent years and showing stronger recovery in early 2025 than the North West and UK benchmarks. Dwell times remain stable, and accessibility is generally strong, supported by good public transport provision, a walkable layout, and ongoing enhancements to the public realm. Perceptions of safety are positive during the daytime, and whilst the evening offer is currently limited, planned

investment and interventions will help to broaden and strengthen this aspect of the centre in the longer term.

Taking all of the evidence together, it is clear that Hyde town centre is in reasonably good health, and is set to benefit from a coordinated programme of investment and regeneration activity that will help to address its challenges and secure its future vitality and viability.

Stalybridge District Centre

Description	Stalybridge, as defined by Experian Goad, comprises 168 units and 28,269 sq.m of floorspace in retail, service and leisure uses. Market Street and Melbourne Street form the main shopping and leisure frontages, and these are connected via road and pedestrian footpaths to a Tesco superstore which lies to the east across the Huddersfield Narrow Canal. As with most of Tameside's centres, the retail offer is focussed on the day-to-day needs of residents. The balance, particularly in the comparison sector, leans towards independent rather than national multiple operators and reflects the size and format of much of the district centre's commercial stock. The non-food offer is reasonably varied and supplemented by the range of comparison goods on offer at the peripheral supermarkets. These supermarkets comprise the Tesco superstore, which plays a key anchor role, and a moderately sized Aldi store in the east. They are complemented by a number of independent food operators, some of very high quality, offering a range of specialist goods including a butcher, greengrocer, and delicatessens. Stalybridge also benefits from excellent public transport connections. It contains the busiest rail station in the borough, providing regular services to Manchester, Leeds and Huddersfield. The station serves as an essential link between Greater Manchester and Yorkshire, reinforcing Stalybridge's role as a strategic gateway. The Trans-Pennine rail line has recently been upgraded, and options to relocate the station are currently being explored to improve integration with the town centre and enhance connectivity.

Figure 1: Stalybridge's Tesco superstore plays a key role in anchoring the centre and is by far its largest individual retail unit

Figure 2: While there are some national multiple comparison operators, most of the district centre's non-food shops are independents

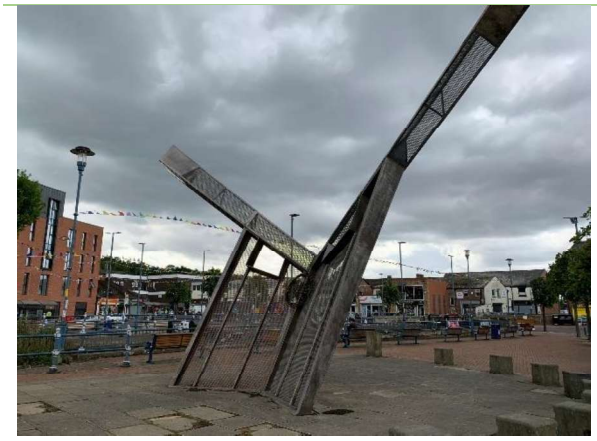

Figure 3: Parts of the centre are newly pedestrianised, which boosts its accessibility

Figure 4: Stalybridge has a growing reputation as a local food and beverage destination.

Table 1 Stalybridge District Centre Floorspace Composition

Source: District centre composition based on boundary as defined by Experian Goad and derived from Nexus Planning Survey of May 2025; UK Average from Experian Goad Report of May 2025.

Uses

As with many district centres, Stalybridge's comparison function is somewhat limited and focussed on the day-to-day needs of local residents. Provision is well below the national average in terms of units, but the relative shortfall compared to the UK average is less pronounced in terms of floorspace. This finding in part reflects the size and format of much of the commercial stock in Stalybridge.

The balance of comparison retailers leans towards independent rather than national multiple operators, although the centre is able to sustain some chain brands (Savers, Wells Pharmacy, Age UK and Cancer Research UK). The remaining non-food offer is reasonably varied, comprising shops

selling goods including art, carpets, clothing, gifts and greeting cards, electronics, flowers, homewares, jewellery and pet supplies. These retailers are supplemented by the broad range of non-food goods available at the district centre's supermarkets.

The convenience sector is anchored by the Tesco superstore on Trinity Street, which draws trade from a broad catchment encompassing much of the Study Area. While the Tesco is located to the east of the district centre's traditional shopping streets and in a somewhat peripheral location, it is well-linked to the heart of the centre via road and footbridges which cross the Huddersfield Canal. A smaller Aldi supermarket lies on Leech Street in the west.

Owing largely to the size of Tesco and, to a lesser extent, Aldi, Stalybridge's level of convenience floorspace is more than double the national average. In terms of convenience units, however, the district centre's provision falls slightly below the proportion found within a typical centre within the UK. Nonetheless, the remaining food retail offer is strong and diverse. The district centre contains a number of independent food operators, some of very high quality, offering a range of specialist goods including a butcher, greengrocer, and delicatessens.

Stalybridge's leisure economy is well-developed for a district centre of this size, with the level of provision exceeding UK averages in terms of floorspace and being in line with the average in terms of units. As explained in more detail below in the 'Daytime/Evening Economy' section, Stalybridge contains a good range of bars, cafes, clubs, pubs, restaurants and takeaway operators. It also contains one of only two large-format bingo halls within the authority area, this being the Cosmo Bingo Club on Market Street.

Financial & business services are relatively underrepresented in Stalybridge, with both the proportions of floorspace and units falling well below UK averages. The uses that are present comprise building suppliers; financial, legal and property service operators; and a print/copy shop.

Importantly, there is no bank or building society in the district centre, with local residents having to travel to alternative destinations in order to fulfil their needs for these services. This is in the context, however, of a fall in such uses across the UK as banking increasingly moves online.

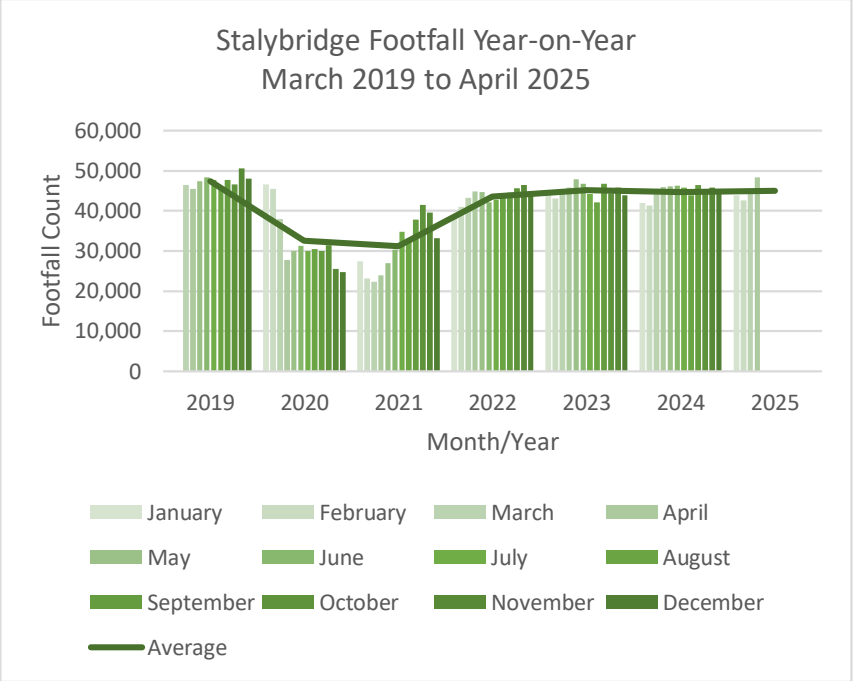

Retail service representation is much stronger, being above the relevant UK averages. Again, this finding reflects Stalybridge's district centre status and role as a day-to-day service centre primarily for its local residents. Health & beauty operators dominate the offer, comprising 79% of the retail service users present in the centre. Nonetheless, there is also representation from opticians, a post office, an undertaker, a seamstress, and an upholsterer. In addition, the Tesco store also provides for a petrol filling station. All of these uses prevent the need for Stalybridge residents to travel further afield to access these services.

Daytime/Evening Economy	The daytime economy of Stalybridge district centre is largely underpinned by its convenience and service function, with the Tesco and the retail and other commercial provision on Market Street, Melbourne Street and Grosvenor Street acting as anchors. While the peripheral supermarkets open late into the evening, most of the centres retailers are closed outside of normal business hours, with Melbourne Street in particular experiencing a drop in activity after dark. With regard to the district centre's evening economy, Stalybridge was once known for its vibrant nightlife which inspired the nickname 'Staly Vegas'. While the evening economy has declined since this highpoint, in part due to issues of antisocial behaviour it generated, there remain a good number of pubs and takeaways particularly around Market Street in the north of the centre. In more recent years, however, Stalybridge has gained success as a local food and drink destination, with its reputation being enhanced by its popular Street Food Festival. The current offer includes a number of good quality cafes and restaurants which reflect the positive developments in the district centre's leisure economy. The forthcoming surrounding residential development and other improvements to Stalybridge described in the 'Opportunity Sites' heading below should help to sustain and enhance these recent successes.
Vacancies	Stalybridge's vacancy rates are below the national average in terms of floorspace, and roughly in line in terms of units. While there was a cluster of vacancies along Trinity Street in the central part of Stalybridge on the day of our fieldwork visit, we note that these units appeared to under alteration in order to facilitate works in association with planning permission references 18/00254/FUL and 25/00610/FUL. These permissions relate to amalgamation and elevational works in order to facilitate new Class E uses in this location. We also noted a second cluster of four empty units in the central part of Melbourne Street, formed by the former bank premises at nos. 20 and 29, the former public house at no. 26, and a vacant retail unit at 31 to 35. While the proximity of these premises to each other increases the adverse impact they generate on the look and feel of the street-scene, they are well-maintained and footfall along the remainder of Melbourne Street is sufficient to ensure that the area does not suffer from a perceived lack of activity. We also consider that the nature of the closures, particularly the two vacant banks, reflects broader challenges in the UK economy rather than any particular deficiency or weakness specific to Stalybridge. Aside from these areas, there were no particular concentrations of vacancies that would give cause for concern, and the empty premises that do exist are generally of moderate size and well-kept, which limits their adverse impacts.

Opportunity Sites	Stalybridge is the beneficiary of a number of recent and ongoing investments aimed at unlocking the regeneration potential of the district centre. The Stalybridge Town Centre Delivery Framework[1] was adopted by the Council in 2024, following a grant of £19.9m in funding from the Governments Capital Regeneration Projects programme, in order to outline the vision and projects on which this money would be spent.[2] The Delivery Frameworks identifies three key project areas: 1. Improving access, public areas, and streets 2. Revitalising cultural and heritage assets 3. Enabling land for new businesses and homes in Stalybridge West With regard to project area 1, Market Street in the district centre has recently benefitted from improvements, including pedestrianisation works, and the Stalybridge Public Realm Vision of May 2024 sets out a roadmap for further enhancing Stalybridge's public spaces.3 £6.1 million is now being invested to connect and improve key areas across Stalybridge. The works are aimed at delivering a better-connected district centre that highlights Stalybridge's historic character and local identity, make its green assets and canals more accessible, and encourages local businesses and visitors. £1.8m of Government funding has been committed to project area 2, with this investment being used to help restore the heritage value and useability of Stalybridge's Civic Hall and Astley-Cheetham Art Gallery and Library. The committed works include repairs to the building fabric and improvements to the accessibility of the art gallery and library. In addition, Stalybridge is the subject of a High Street Heritage Action Zone, which will see the Council working in partnership with Historic England.[4] A total of £2.55m of investment over four years is being used regenerate the historic core of the district centre. Interventions include improvements to historic shop fronts on Market Street and enhancements to the footways and street scene along Market Street to create a Heritage Walk that connects the town's key western gateway from the railway station to its Historic Quarter. Project area 3 concerns Stalybridge West, an area to the west of the district centre comprised of several large vacant and underused sites in Council and private ownership. Given its proximity to the railway station, the

	Council has earmarked this location for residential development in a highly sustainable location that will support the local economy. Site investigations have been completed and the Council is currently seeking a developer partner to secure the delivery of upfront enabling infrastructure to bring forward land at Stalybridge West for development. The project seeks to deliver comprehensive regeneration of the Town Centre, attract further investment, and provide new housing in Stalybridge. The infrastructure works identified include a new footbridge across the River Tame, a new multi-level car parking facility within the district centre to replace existing surface level car parking on sites identified for new residential development, and land remediation. Design work for the car park and bridge is now being prepared. Collectively, these regeneration initiatives have the potential to build on Stalybridge's existing strengths and bring new footfall, activity, and spending that will secure the long-term vitality and viability of the district centre.
Pedestrian Flows	On the day of our site visit, footfall in Stalybridge was high around the Tesco and Aldi stores, and we observed some linked trips particularly between the former and the rest of the district centre. Within the heart of the district centre, pedestrian activity was lighter but there were still visitors scattered throughout. Footfall was concentrated along the main shopping and leisure streets of Market Street, Melbourne Street and Grosvenor Street, with considerably fewer people in the secondary streets. Melbourne and Trinity Streets also clearly benefitted from their connectivity with the railway station. In terms of detailed footfall statistics, the Council has provided us with data collected by Place Informatics between March 2019 and April 2025. These data relate to: • year-on-year footfall; • footfall change from pre-pandemic levels; and • average dwell times. In the first four months of 2025, Stalybridge district centre achieved a monthly average of 44,928 visitors, representing a moderate year-on-year increase compared to the monthly average of 43,376 visitors over the same period in 2024. The table below shows that footfall fell dramatically in Stalybridge between 2020 to 2021 during the height of the Covid-19 pandemic, but has remained largely steady since the recovery of 2022, consistently averaging around 45,000 monthly visitors.

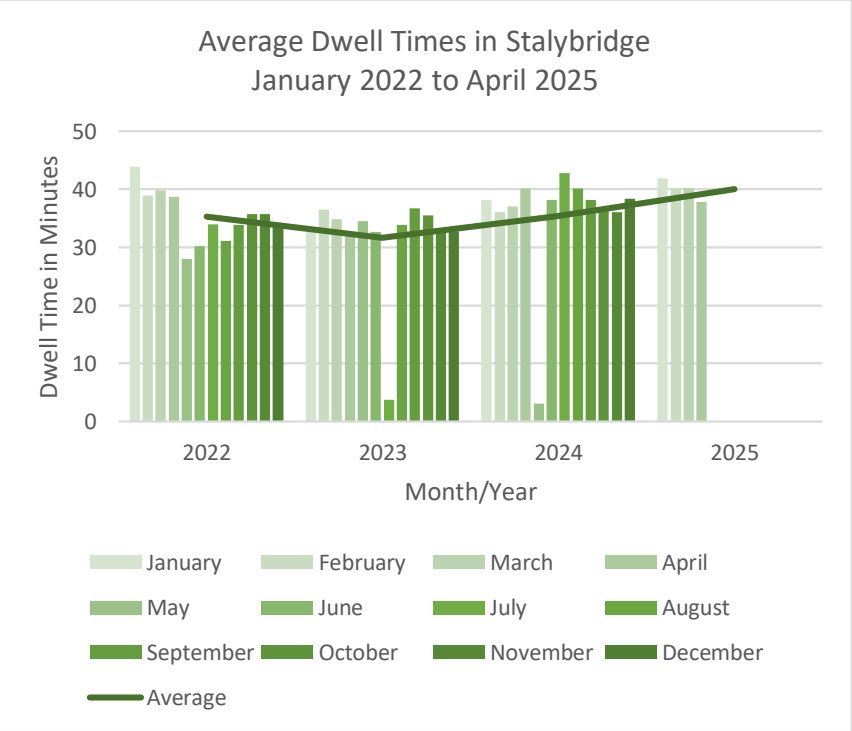

The table below shows the monthly percentage change in footfall in Stalybridge district centre between pre-pandemic (i.e. 2019 and the early months of 2020) and five years later. For comparison, the table shows the same trends for the North West and the UK as a whole.

The table shows that, aside from a modest uptick in December 2024, footfall levels in both the North West and the UK as a whole have yet to return to their pre-pandemic benchmarks. With the exceptions of November and December 2024, footfall levels in Stalybridge proved more resilient than the rest of the region and country. The best relative performance of Stalybridge occurred in September 2024, when footfall in the district centre was just -2.9% below the level recorded five years earlier, compared to falls of -8.6% in the North West and -10.3% in the UK.

In January and February 2025, Stalybridge's footfall was down -6.0% and -6.3% respectively compared to five years prior, while the North West saw drops of -8.7% and -6.4% respectively and the UK experienced falls of -11.6% and -8.2% respectively over the same period.

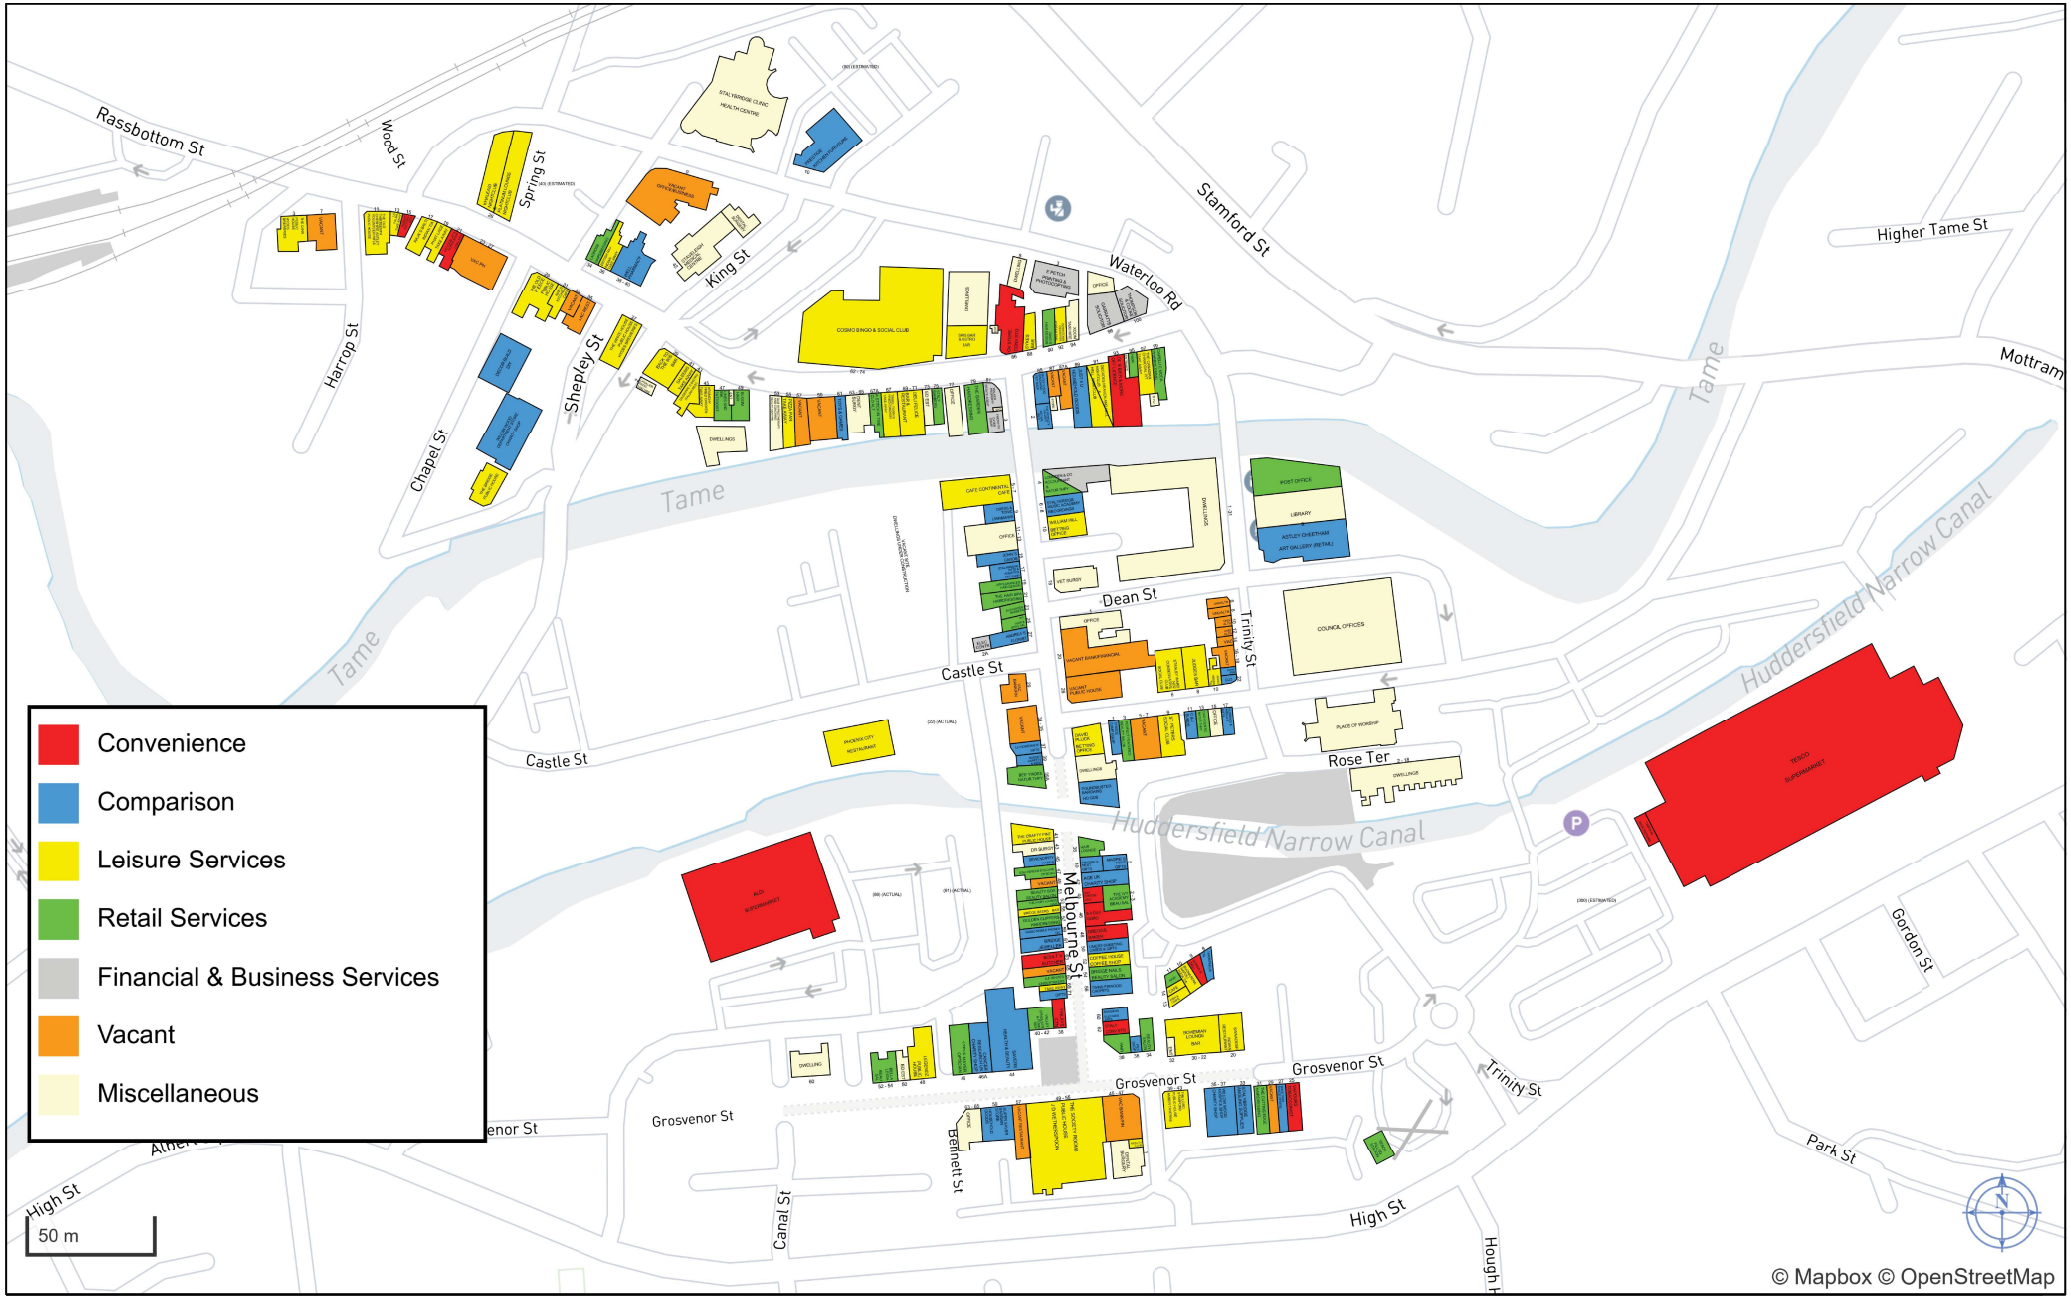

The table below shows average dwell times in Stalybridge district centre over the period January 2022 to April 2025. The table demonstrates that dwell times have fluctuated fairly significantly, but that the overall yearly average has risen from 35.3 minutes in 2022 to 40.0 minutes in the early months of 2025.

	Overall, while footfall in Stalybridge district centre was severely impacted by the Covid-19 lockdowns and has still not recovered to pre-pandemic levels, it has proven to be relatively resilient in more recent years by consistently attracting around 45,000 monthly visitors. Dwell times have fluctuated more, with yearly averages ranging between a low of 31.7 minutes in 2023 and 40.0 minutes in the opening months of 2025.
Accessibility	Stalbridge is reasonably well-connected by road, being located close to the A6018 which links to Ashton-under-Lyne and Manchester city centre to the west and Mottram to the east. The district centre also benefits from very good public transport access, having its own dedicated bus and railway stations which connect it to various destinations across Greater Manchester. The priorities identified in the Stalybridge Town Centre Delivery Framework include the delivery of public realm works to improve pedestrian routes and access to public transport, including Market Street from the bus station site to the railway station and Trinity Street. In terms of on-foot accessibility, including for those with mobility impairments, parts of Stalybridge's main shopping streets are now pedestrianised. This has boosted the ease of movement around the district centre. While the topography can at times be uneven due to the centre's location near the Pennines, in general the streets are sufficiently wide and free of clutter that would inhibit pedestrian movement.
Perception of Safety	Stalybridge feels generally safe and secure during the day. It benefits substantially in this regard from the surveillance provided by the consistent footfall and largely linear layout, together with the activity associated with its busy, large-format stores. As noted above, we understand that in the past Stalybridge gained a reputation for anti-social behaviour associated with its nightlife. Though it retains a number of public houses, its current evening economy is more balanced towards restaurants and bars. These operators bring a level of activity in the evening which enhances perceptions of safety rather than unease. The district centre also benefits from street lighting throughout which makes it look and feel safer to visit after dark.
Environmental Quality	Stalybridge enjoys a picturesque location in the foothills of the Pennines and the positive environmental assets created by the canal and River Tame, which both run through the district centre. The centre includes some high-quality historic buildings, including the Grade II Listed Holy Trinity Church in the north-east. Recent public realm works have resulted in boosts to the look and feel of important pedestrian routes, and new investment is committed to further improving the appearance and accessibility of key public spaces and streets.

	While the district centre contains some vacant units which detract from the street-scene, on the whole it is well-maintained and free of litter and graffiti. We therefore consider that overall Stalybridge performs well in terms of its environmental quality, and that the forthcoming works will further build on these strengths.
Conclusions	Stalybridge district centre performs well across a number of key healthcheck indicators. The centre benefits from strong convenience provision, anchored by Tesco and Aldi, alongside a diverse range of independent food retailers. This function ensures the day-to-day needs of local residents are well served and generates consistent footfall. The leisure economy is also relatively strong, with cafés, restaurants, pubs and clubs providing variety and contributing positively to both the daytime and evening economy. Stalybridge's emerging reputation as a food and beverage destination further enhances its attractiveness. Vacancy levels are below the national average in terms of floorspace and broadly in line in terms of units, with no concentrations of empty premises that would give rise to particular concern. Those vacancies that do exist are generally of moderate size, well-maintained, and in some cases already subject to redevelopment or reoccupation proposals. Pedestrian flows are steady, with footfall proving more resilient than regional and national comparators in the post-pandemic period. Average dwell times have also risen in recent years, suggesting that visitors are spending longer in the centre. Accessibility is strong, with good public transport connections and recent pedestrianisation works improving ease of movement. The centre also benefits from a generally safe and attractive environment, supported by recent and ongoing investment in the public realm. Looking forward, Stalybridge is well positioned to capitalise on substantial regeneration funding and delivery initiatives. Planned improvements to its public spaces, heritage assets and opportunity sites will further enhance the vitality and viability of the centre, while new residential development at Stalybridge West will bring additional footfall and spending. Overall, we consider Stalybridge to be in reasonably good health, with a number of committed investments set to further enhance its vitality and viability both in the short and long term.

Mossley Local Centre

Description

Mossley is Tameside's smallest defined centre, having just 54 retail, leisure and service units amounting to 6,154 sq.m of commercial floorspace. Arundel Street and Stamford Street form the main shopping streets, in what is locally known as Top Mossley. There is also local retail provision and a cluster of services in Bottom Mossley, located further down the valley around the railway station. Top Mossley and Bottom Mossley are linked by Stamford Road, which serves as the main route connecting the two parts of the town.

The local centre plays an important retail and service role for its residents, many of whom benefit from its rail connectivity with Manchester. The retail offer reflects this function, and provides for a good range of daily essentials. The leisure offer is fairly well-developed for a centre of this size, with a number of pubs and restaurants that cater to local trade.

Figure 1: The majority of Mossley's operators are small-scale independent traders

Figure 2: The Co-op is the key convenience anchor and only national multiple retailer

Uses

As with many small local centres, Mossley's retail and service offer is weighted towards the day-to-day needs of its residential catchment.

The local centre's comparison provision is limited, compared with national averages, but includes a number of specialist independents selling goods such as antiques and gifts. Importantly, there is a pharmacy within the centre.

Convenience provision is stronger, and anchored by the Co-op Food store on Arundel Street, which is the centre's only national multiple retailer. This is complemented by some smaller independent food retailers, including a butcher.

Although below UK averages, there is a range of community leisure uses within the centre including the Vale, George Lawton Hall. Mossley is also home to Global Grooves, a carnival arts organization. Leisure services are proportionately well-represented considering the size and function of Mossley. Provision is focussed on the food and drink sector, with a good number and variety of pubs and restaurants present. There are also some takeaway operators.

As might be expected given Mossley's role as a local service destination, its proportion of retail service traders is well above the relevant UK averages. In addition to health & beauty operators, the centre enjoys representation from a dry cleaners, laundrette and dog groomer.

The financial & business services sub-sector is limited to a small number of solicitors firms.

Daytime/Evening Economy

The daytime economy is largely sustained by the Co-op, smaller food operators, and services that generate steady footfall throughout the day.

As noted above, the evening economy is strong for a centre of Mossley's size, with pubs and restaurants scattered throughout. While it cannot be compared to the larger leisure offers in nearby district and town centres, the provision plays an important role locally by offering accessible evening options within the community.

Vacancies

Vacancies are a notable issue in Mossley, with the vacancy rates being significantly higher than the UK averages in terms of both floorspace and units. The largest vacancy is the George Lawton Hall on Stamford Street, which accounts for 12% of the centre's local floorspace.

	The remaining vacancies are all small in scale. There is a small concentration on Lees Road in the north of the centre, but these units are well-maintained and the peripheral location limits their adverse impact on the look and feel of the local centre. The remaining small vacancies are scattered throughout the centre.
Opportunity Sites	Given its scale, Mossley has limited opportunity sites compared with larger centres. However, several vacant premises could lend themselves to reoccupation or repurposing for retail, leisure, or service uses that would align with the centre's community role.
Pedestrian Flows	Despite its small size, Mossley has relatively high footfall throughout on the day of our site visit. The Co-op store was particularly busy with foot and car traffic. At times, we observed that car traffic impeded pedestrian movement through the local centre, particularly at the traffic lights near Stamford Road in the north of the centre. However, there are crossing points scattered throughout which help alleviate this issue. In terms of detailed footfall statistics, the Council has provided us with data collected by Place Informatics between March 2019 and April 2025. These data relate to: • year-on-year footfall; • footfall change from pre-pandemic levels; and • average dwell times. In the first four months of 2025, Mossley local centre achieved a monthly average of 57,686 visitors, representing a year-on-year increase compared to the monthly average of 56,391 visitors over the same period in 2024. The table below shows that footfall fell dramatically in Mossley between 2020 to 2021 during the height of the Covid-19 pandemic, and has been gradually falling since the recovery of 2022. The average monthly visitor count declined between 60,231 in 2022 to 58,635 over the calendar year of 2024.

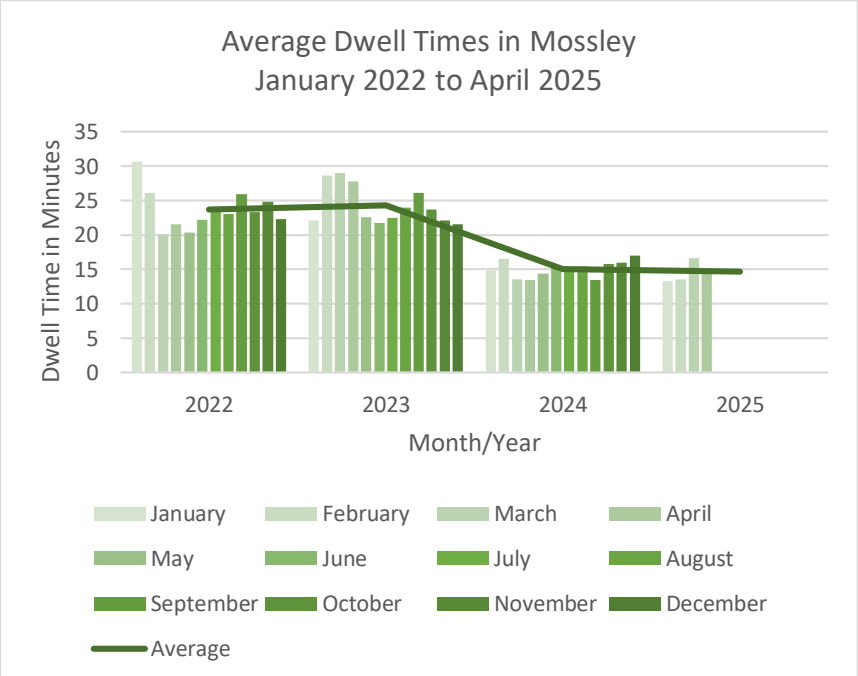

The table below shows the monthly percentage change in footfall in Mossley local centre between pre-pandemic (i.e. 2019 and the early months of 2020) and five years later. For comparison, the table shows the same trends for the North West and the UK as a whole.

The table shows that, aside from a modest uptick in December 2024, footfall levels in both the North West and the UK as a whole have yet to return to their pre-pandemic benchmarks. For much of the five-year period, footfall levels in Mossley proved more resilient than the rest of the region and country. The best relative performance of Mossley occurred in September 2024, when footfall in the district centre was just -0.9% below the level recorded five years earlier, compared to falls of -8.6% in the North West and -10.3% in the UK.

In January and February 2025, Mossley's footfall was down -9.2% and -8.3% respectively compared to five years prior, while the North West saw drops of -8.7% and -6.4% respectively and the UK experienced falls of -11.6% and -8.2% respectively over the same period.

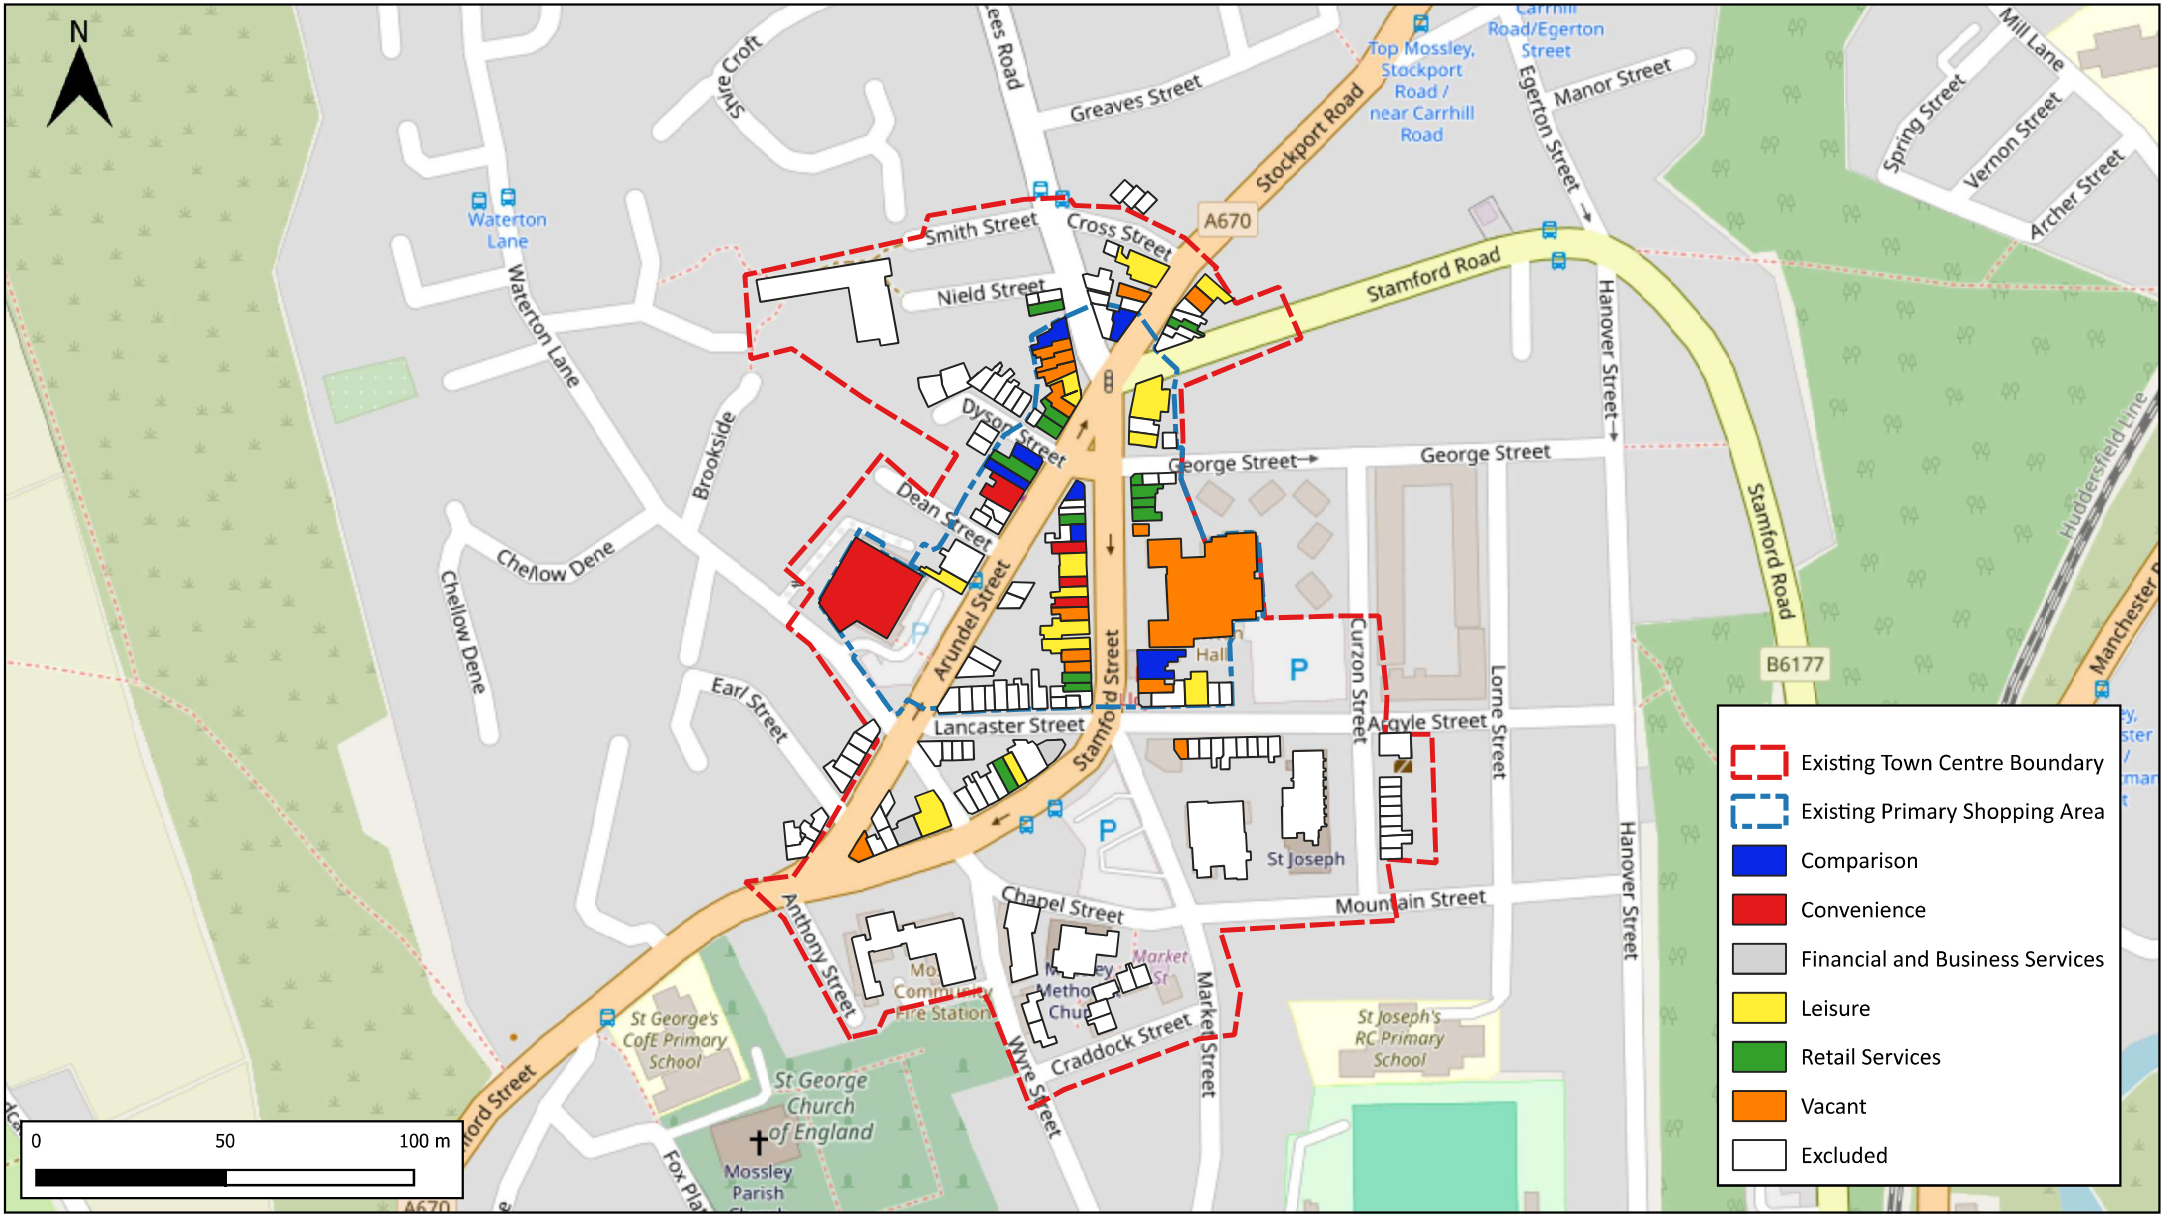

The table below shows average dwell times in Mossley local centre over the period January 2022 to April 2025. The table demonstrates that the highest dwell times on average were recorded in 2023, when the monthly average peaked at 24.3 minutes. Since then, the average dwell times have fallen substantially to 15.1 minutes in 2024 and 14.7 minutes over the first four months of 2025.

	Overall, footfall in Mossley local centre was impacted by the Covid-19 lockdowns and has still not recovered to pre-pandemic levels, albeit that the percentage decrease compared to five years prior is broadly in line with regional and national averages. Footfall in the centre has been trending slightly downward in recent years, and dwell times have also declined to an average of less than 15 minutes. Strategies for securing the future vitality and viability of Mossley will need to consider measures that will encourage more visitors and longer dwell times in order to ensure that the negative trends do not become entrenched.
Accessibility	Mossley is located along the A670, which connects it by road to Ashton-under-Lyne and other destinations in Greater Manchester. The local centre is reasonably well-served by public transport, with bus stops on Dean Street and at Market Place linking it to the Greater Manchester Bee Network. Mossley railway station serves the local community but lies around half a mile or 16 minutes' walk from the local centre itself. With regard to pedestrian accessibility, the local centre lies at the heart of a substantial walk-in residential catchment. Due to its location in the upper Tame Valley and foothills of the Pennines, Mossley's topography is not flat and it may at times provide difficult to traverse for those with impaired mobility. In general, however, the streets are wide and clutter free.
Perception of Safety	Mossley feels safe and welcoming during the day, benefitting from the natural surveillance opportunities offered by its active frontages, linear layout and steady footfall. The evening economy is underpinned by the local centre's pubs and restaurants, which contribute positively to perceptions of activity and safety. We observed no significant evidence of anti-social behaviour within the centre.
Environmental Quality	Mossley's setting in the Tame Valley provides an attractive backdrop to the local centre, and the traditional stone-built properties give the area a strong sense of character. While vacant premises detract in some locations, most buildings are in good repair and the streets are generally well-maintained. While some of the shopfronts would benefit from updates, there is little evidence of graffiti or litter and overall we consider that the local centre performs well in terms of its environmental quality.
Conclusions	Mossley is anchored by its Co-op store, which is supported by a range of independents serving a localised catchment that benefits from the connectivity of the centre with the city centre and other destinations across Greater Manchester. The leisure offer is well-developed for a centre of this scale, with a good number of pubs and restaurants and community venues such as the Vale that generate activity in the evenings.

While it enjoys consistently high footfall and good environmental quality, Mossley does suffer from higher-than-average vacancy levels.

Nonetheless, we consider that Mossley local centre continues to perform well in its role in providing for the everyday shopping and service needs of its local community.

Table 6a: Estimated capacity for additional convenience goods floorspace in Tameside Borough

Year	Benchmark Turnover (£m)[1]	Available Expenditure (£m)[2]	Inflow (£m)	Surplus Expenditure (£m)
2025	594.7	613.9	18.4	37.6
2030	594.7	609.0	18.3	32.5
2035	592.4	610.0	18.3	35.9
2040	589.4	612.3	18.4	41.3
2042	588.2	613.4	18.4	43.6
Study Area Market Share (%)		**53.1%**		

Notes:
a. Allows for increased turnover efficiency as set out in Figure 4a of Experian Retail Planner Briefing Note 22 (March 2025)
b. Assumes constant market share claimed by facilities in Tameside Borough of 44.9% of Study Area expenditure

Table 6b: Gross quantitative capacity for additional convenience goods floorspace in Tameside Borough

Year	Surplus Expenditure (£m)	Floorspace Capacity (sq m net) Min[1]	Max[2]
2025	37.6	3,000	3,800
2030	32.5	2,600	3,300
2035	35.9	2,800	3,600
2040	41.3	3,300	4,200
2042	43.6	3,500	4,400

Notes:
a. Average sales density in respect of minimum floorspace assumed to be £12,717 per sq.m at 2025 which is average of 'main four' foodstore operators
b. Average sales density in respect of maximum floorspace assumed to be £9,923 per sq.m at 2025 which is average of principal two discount operators
c. Allows for increased turnover efficiency as set out in Figure 4a of Experian Retail Planner Briefing Note 22 (March 2025)

Table 6c: Extant convenience goods commitments in Tameside Borough

Location	Reference	Proposal	Gross Floorspace (sq m)	Net Sales floorspace (sq.m)	Net Convenience Goods floorspace (sq.m)	Estimated Sales Density (£ per sq.m)	Estimated Convenience Turnover (£m)
Ashworth Lane, Hattersley	23/01063/FUL	The demolition of existing structures and erection of a mixed-use development comprising: a Foodstore (Class E); a drive through coffee shop (Class E); a terrace of eight divisible employment units for flexible use within Use Classes E(g), B8 and B2 (vehicle repair garage only); a Use Class Sui Generis electric vehicle charging hub	1,842	1,344	1,075	11,748	12.6
Godley Green Garden Village, Land off Old Mottram Rd, Hyde	21/01171/OUT	Outline application, with all matters reserved other than access, for the demolition of certain existing building and structures, and the redevelopment of the site for a residential-led, mixed-use development comprising; residential dwellings (Use Classes C3 and C2); local centres including retail, commercial and community uses	1,300	1,040	1,040	7,000	7.3
							19.9

Notes:

Table 26a: Estimated capacity for additional comparison goods floorspace in Tameside Borough

Year	Turnover (£m)[1]	Available Expenditure (£m)[2]	Inflow (£m)	Surplus Expenditure (£m)
2025	668.4	636.5	31.8	0.0
2030	743.7	705.0	35.3	-3.4
2035	833.3	798.4	39.9	5.1
2040	933.6	901.8	45.1	13.3
2042	977.0	945.5	47.3	15.7
Study Area Market Share (%)		**47.5%**		

Notes:
a. Allows for increased turnover efficiency as set out in Figure 4b of Experian Retail Planner Briefing Note 22 (March 2025)
b. Assumes constant market share claimed by facilities in East Staffordshire Borough of 47.5% of Study Area expenditure

Table 26b: Gross quantitative capacity for additional comparison goods floorspace in Tameside Borough

Year	Surplus Expenditure (£m)	Floorspace Capacity (sq.m net) Min[1]	Max[2]
2025	0.0	0	0
2030	-3.4	-500	-900
2035	5.1	700	1,200
2040	13.3	1,600	2,700
2042	15.7	1,800	3,100

Notes:
a. Average sales density in respect of minimum floorspace assumed to be £6,000 per sq.m at 2025 which Nexus Planning considers to be towards the higher end of what could be achieved in Tameside
b. Average sales density in respect of maximum floorspace assumed to be £3,500 per sq.m at 2025 which Nexus Planning considers to be towards the lower end of what could be achieved in Tameside
c. Allows for increased turnover efficiency as set out in Figure 4b of Experian Retail Planner Briefing Note 22 (March 2025)

Table 26c: Extant comparison goods commitments in Tameside

Location	Reference	Proposal	Gross Floorspace (sq m)	Net Sales floorspace (sq.m)	Net Comparison Goods floorspace (sq.m)	Estimated Sales Density (£ per sq.m)	Estimated Comparison Turnover (£m)
Ashworth Lane, Hattersley	23/01063/FUL	The demolition of existing structures and erection of a mixed-use development comprising: a Foodstore (Class E); a drive through coffee shop (Class E); a terrace of eight divisible employment units for flexible use within Use Classes E(g), B8 and B2 (vehicle repair garage only); a Use Class Sui Generis electric vehicle charging hub	1842	1344	269	8,476	2.3
Godley Green Garden Village, Land off Old Mottram Rd, Hyde	21/01171/OUT	Outline application, with all matters reserved other than access, for the demolition of certain existing building and structures, and the redevelopment of the site for a residential-led, mixed-use development comprising; residential dwellings (Use Classes C3 and C2); local centres including retail, commercial and community uses	1,300	1,040	1,040	5,000	5.2
							7.5

Notes:
a. Gross and net sales areas derived from planning application where available
b. Where net sales area not confirmed, Nexus Planning professional judgement applied
c. Sales densities derived from GlobalData Convenience and Comparison Goods Sales Densities of Major Grocers 2024e (March 2025)

Table 26d: Net quantitative capacity for additional comparison goods floorspace in Tameside Borough

Year	Surplus Expenditure (£m)	Commitments (£m)	Residual Expenditure (£m)	Floorspace Capacity (sq m net) Min[1]	Max[2]
2025	0.0	7.5	-7.5	-1,200	-2,100
2030	-3.4	8.3	-11.8	-1,800	-3,000
2035	5.1	9.3	-4.2	-600	-1,000
2040	13.3	10.4	2.8	300	600
2042	15.7	10.9	4.8	500	900

Notes:
a. Average sales density in respect of minimum floorspace assumed to be £6,000 per sq.m at 2025 which Nexus Planning considers to be towards the higher end of what could be achieved in Tameside
b. Average sales density in respect of maximum floorspace assumed to be £3,500 per sq.m at 2025 which Nexus Planning considers to be towards the lower end of what could be achieved in Tameside
c. Allows for increased turnover efficiency as set out in Figure 4b of Experian Retail Planner Briefing Note 22 (March 2025)
d. Residual calculated by subtracting turnover of commitments (sourced from Table 26c) from surplus expenditure (sourced from Table 26a)

Table 5a: Estimated Capacity for Additional Café/Restaurant Floorspace in Tameside Authority Area

Year	Benchmark Turnover (£m)[1]	Available Expenditure (£m)[2]	Exp. with 5% Inflow (£m)	Surplus Expenditure (£m)
2025	139.3	132.3	139.3	0.0
2030	139.7	138.2	145.5	5.8
2035	140.4	145.5	153.1	12.7
2040	141.1	153.5	161.5	20.4
2042	141.4	156.8	165.1	23.7
Study Area Market Share (%)		**41.5**		

Notes:
a. Allows for increased turnover efficiency as set out in Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure (March 2025)
b. Assumes constant market share claimed by Tameside facilities of 41.5% of Study Area expenditure

Table 5b: Gross Quantitative Capacity for Additional Café and Restaurant Floorspace in Tameside Authority Area

Year	Surplus Expenditure (£m)	Floorspace Capacity (sq.m)
2025	0.0	0.0
2030	5.8	700
2035	12.7	1,500
2040	20.4	2,400
2042	23.7	2,700

Notes:
a. Average sales density assumed to be £8,584 per sq.m at 2024 as derived from Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure (March 2025)
b. Allows for increased turnover efficiency as set out in Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure (March 2025)

Table 5d: Net Quantitative Capacity for Additional Café and Restaurant Floorspace in the Tameside Authority Area

Year	Surplus Expenditure (£m)	Commitments (£m)	Residual Expenditure (£m)	Residual Floorspace Capacity (sq m net)
2025	0.0	0.0	0.0	0
2030	5.8	0.0	5.8	700
2035	12.7	0.0	12.7	1,500
2040	20.4	0.0	20.4	2,400
2042	23.7	0.0	23.7	2,700

Notes:
a. Average sales density assumed to be £8,584 per sq.m at 2024 as derived from Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure (March 2025)
b. Allows for increased turnover efficiency as set out in Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure (March 2025)

Table 10a: Estimated Capacity for Additional Licensed Premises Floorspace in Tameside Authority Area

Year	Benchmark Turnover (£m)[1]	Available Expenditure (£m)[2]	Exp. with 5% Inflow (£m)	Surplus Expenditure (£m)
2025	60.5	57.4	60.5	0.0
2030	60.6	60.0	63.2	2.5
2035	60.9	63.2	66.5	5.5
2040	61.2	66.6	70.1	8.9
2042	61.4	68.1	71.6	10.3
Study Area Market Share (%)		**39.3**		

Notes:
a. Allows for increased turnover efficiency as set out in Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure (March 2025)
b. Assumes constant market share claimed by Tameside facilities of 39.3% of Study Area expenditure

Table 10b: Gross Quantitative Capacity for Additional Licensed Premises Floorspace in Tameside Authority Area

Year	Surplus Expenditure (£m)	Floorspace Capacity (sq.m)
2025	0.0	0
2030	2.5	300
2035	5.5	600
2040	8.9	1,000
2043	10.3	1,200

Notes:
a. Average sales density assumed to be £8,584 per sq.m at 2024 as derived from Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure
b. Allows for increased turnover efficiency as set out in Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure

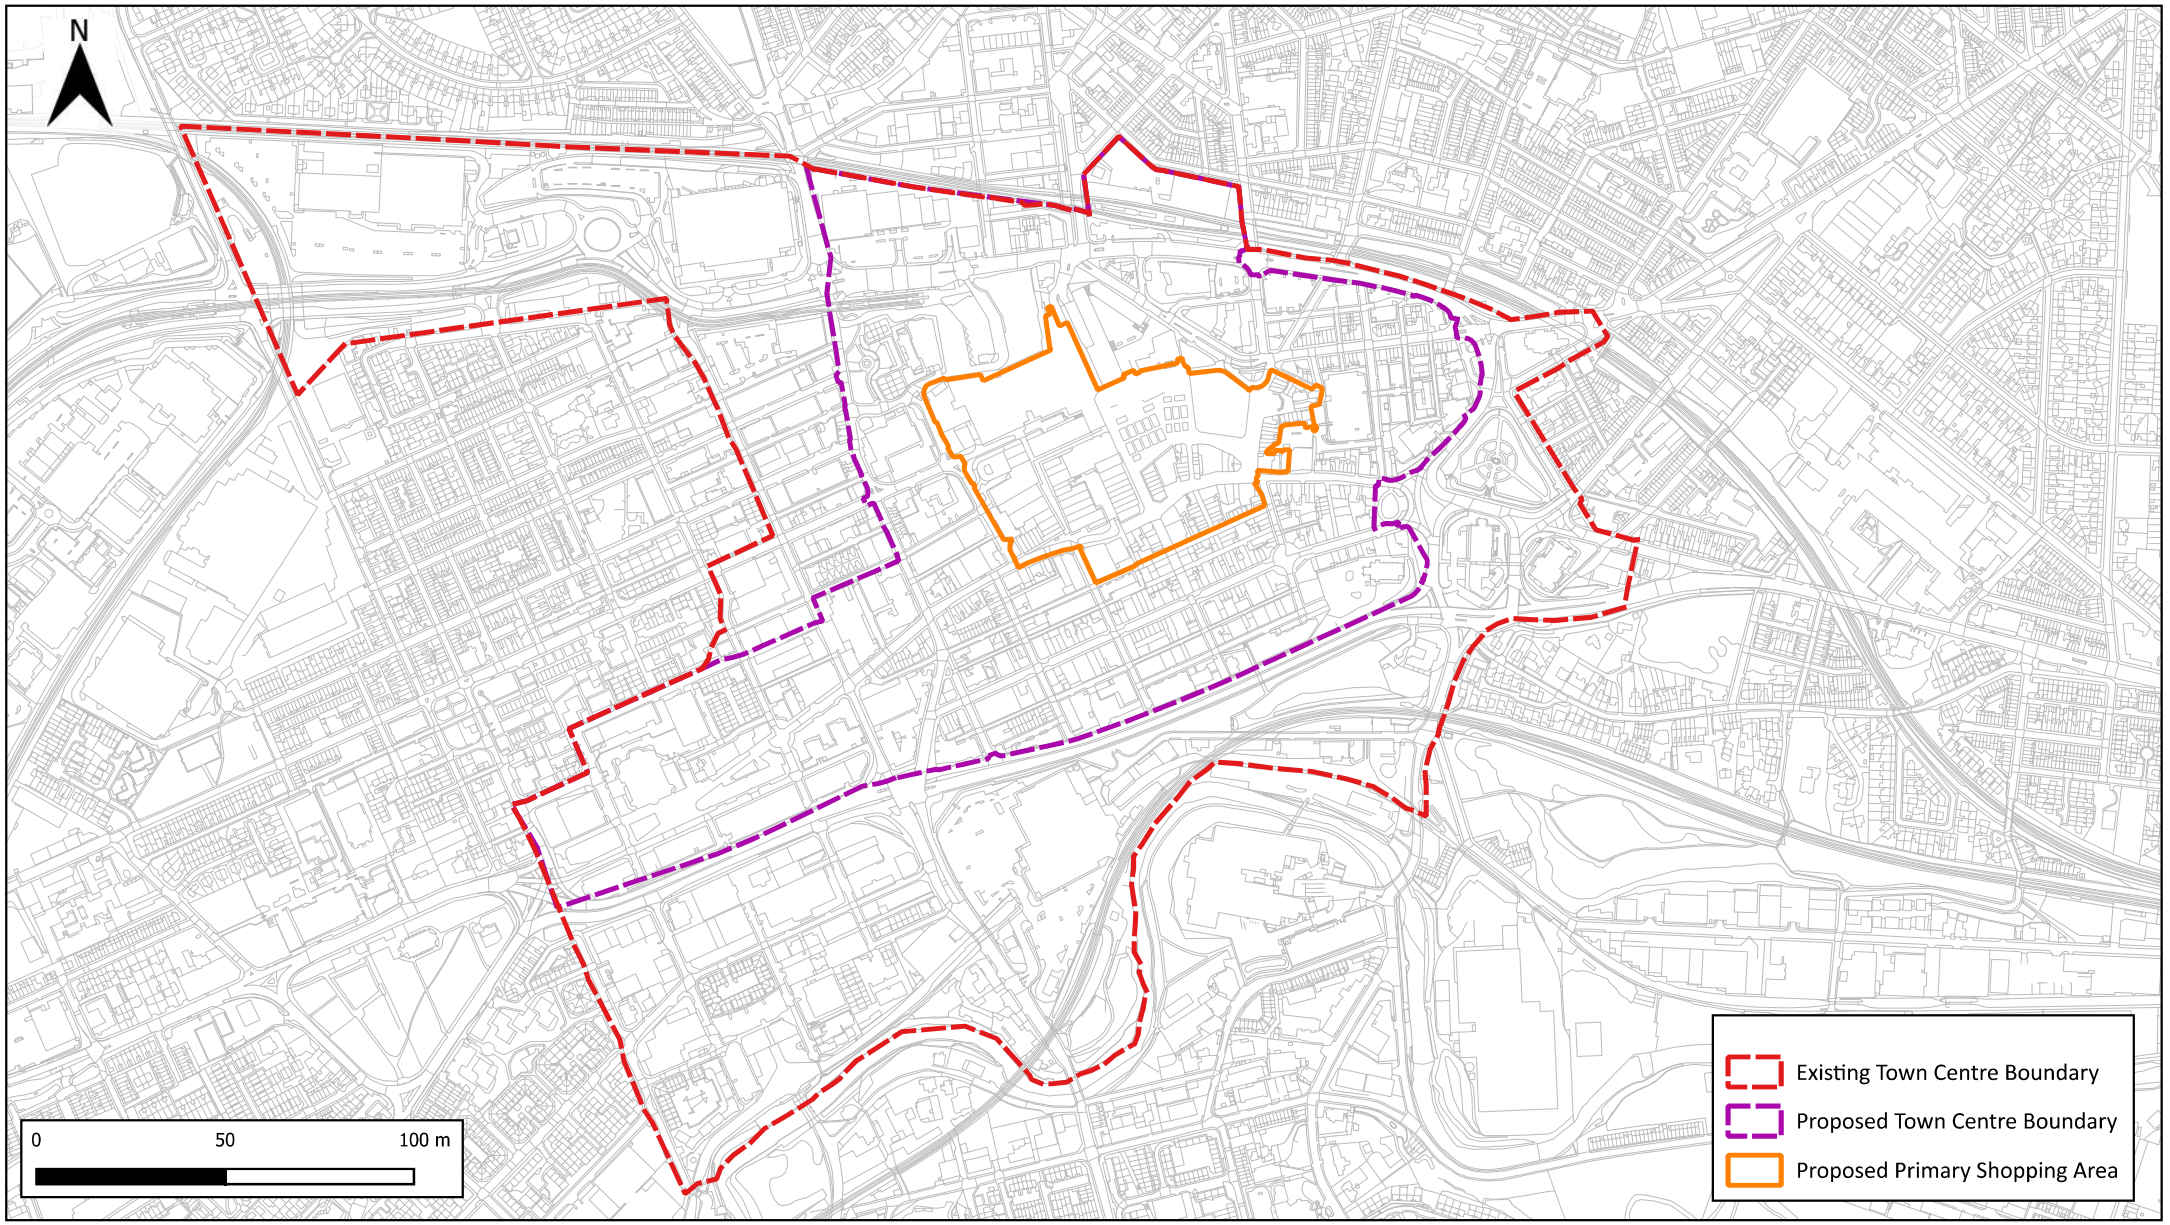

Table 10d: Net Quantitative Capacity for Additional Licensed Premises Floorspace in the Tameside Authority Area

Year	Surplus Expenditure (£m)	Commitments (£m)	Residual Expenditure (£m)	Residual Floorspace Capacity (sq m net)
2025	0.0	0.0	0.0	0
2030	2.5	0.0	2.5	300
2035	5.5	0.0	5.5	600
2040	8.9	0.0	8.9	1,000
2042	10.3	0.0	10.3	1,200

Notes:
a. Average sales density assumed to be £8,584 per sq.m at 2024 as derived from Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure (March 2025)
b. Allows for increased turnover efficiency as set out in Figure 2 of Experian Retail Planner Briefing Note 22 - Leisure (March 2025)
