Our overarching aim is to help and safeguard adults with care and support needs to ensure these adults are free from abuse and the fear of abuse. TASPB has a role to ensure Safeguarding Adults is everybody's business and in doing so must apply 3 statutory functions as defined in the Care Act 2014:

- Publish a Strategic Plan

- Commission Safeguarding Adult Review

How do we do this?

Governance & Accountability

- Subgroups and task-and-finish groups aligned with strategic objectives.
- Regular progress reviews and risk assessments.
- Annual report to reflect effectiveness and outcome

Adults who Experience Multi-Disadvantage
Objective: We will demonstrate that there are strong cross-sector partnerships to respond to tackling multiple disadvantage and improving outcomes to prevent Adult Abuse in this cohort of people.

Homelessness and Rough Sleeping
Objective: We will have assurance that local safeguarding arrangements and partnerships adequately protect adults with care and support needs who may be vulnerable to abuse or neglect (including self-neglect) and are homeless.

Principles

Included in The Care Act 2014 are 6 Principles of Safeguarding, these are a core set of standards for Partner Organisations that underpin the Safeguarding Adult Work.

We strive for these Principles to be applied and seek assurance that this practice is adopted.
