

Bin Swap ... an amazing idea!

Bin Swap holds no fears for Andrew Higginbottom. It arrives in his Droylsden neighbourhood next week and he's looking forward to the scheme. He describes it as an amazing idea.

Andrew, who lives with his partner Karen and daughter Zoe, is already a keen recycler and the family makes full use of their four bins. Andrew fervently believes in looking after the environment, even to the point of creating a mini-nature reserve in his garden.

"It would be a shame if our kids inherited a dirty planet and the best view from their window was a pile of rubbish," he commented.

"Bin Swap is such an easy way to make a difference – to get people recycling more. If they'll give it a chance they'll see how easy it can be. It's a great way of saving money.

"I feel very strongly about this. If it was up to me I would fine people who refuse to recycle properly."
